

TO AL PACINO AND THE ENTIRE WORLD

ZULFIKAR MOINUDDIN AHMED

Al Pacino asks me "Why does Bill Gates want to destroy this man's life?"

I will briefly tell you. I brought to Bill Gates one of my finest great works of genius, my Medium Frequency Alpha strategies, a great breakthrough in Finance, a masterpiece of which I am extremely proud. D. E. Shaw & Co. would trade it. I arranged in meta so he could put some money into my great work. I expected him to show the generosity of a gentleman, which I expect from people in business. So he put in \$2 billion but instead of reciprocating a man whose genius was benefitting him, he decided to *denigrate my great work as 'trivia'* and starve me of *all income* with severe racial hatred, tell D. E. Shaw that he planned to murder me and take all my work and attribute it to white people. Then he proceeded to tell high level American Government officials that I had forged papers. I later found out that he had strong genocidal feelings towards non-white people and that he had put in tens of billions into wars in Asia.

This is one of the worst human beings and criminals I have ever come across. American Government was reluctant to kill him. I had to push to change the world order and organise a Eurasian Defense Alliance eventually so they could whack him. I am still not able to recover \$620 million of legitimate earnings to continue with my American Dream.
