

WIFE BEATING VIEWS BY ETHNICITY

ZULFIKAR MOINUDDIN AHMED

	wbbad	wbok
Arab	94.04	5.96
Black	92.41	7.59
East Asian	94.26	5.74
Indian	94.98	5.02
Other	90.70	9.30
White	93.13	6.87

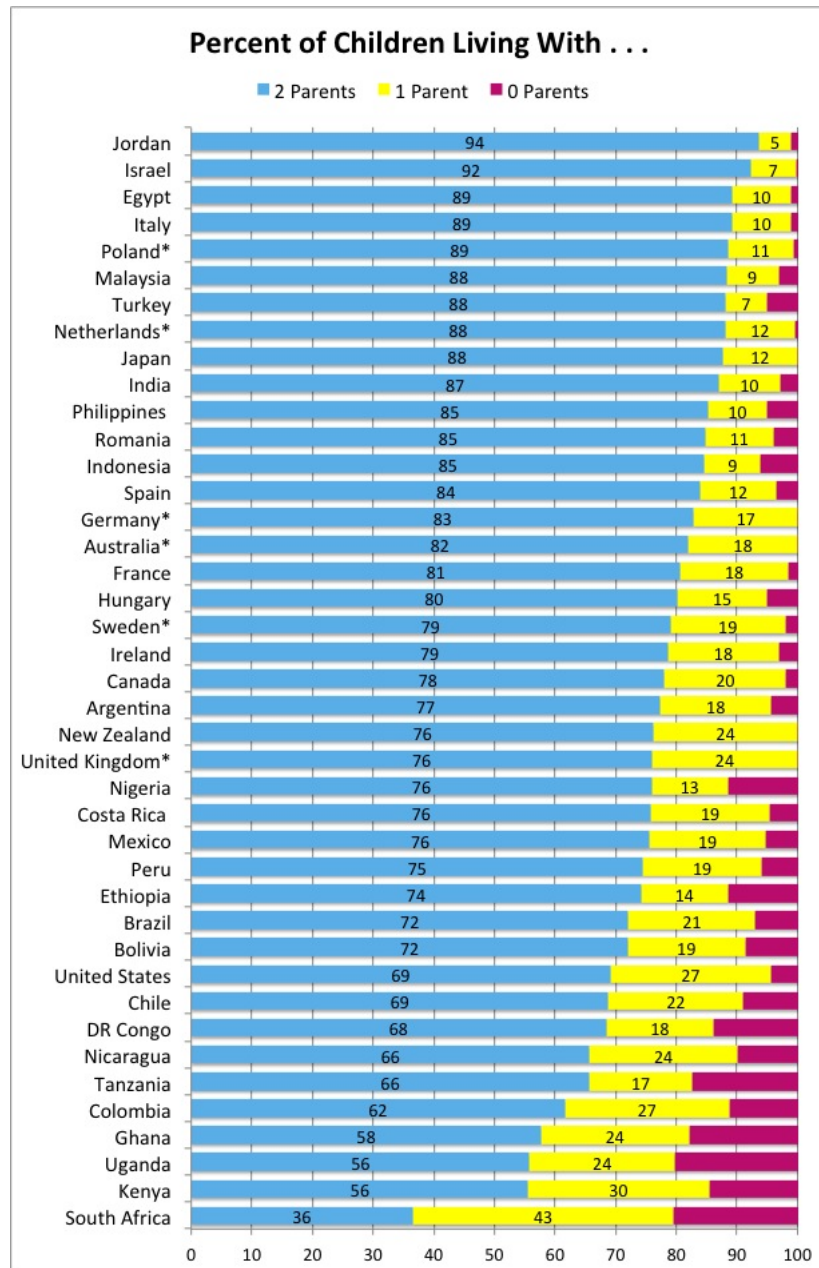

The data are good from World Values Surveys. I lump together Q189 1-5 and being against wife beating and 6-10 as permissive.

So here's the roundup. The least likely here are Indians, then East Asians, then Arabs, then Whites, then Blacks, then the Others. Whites are not the worst in wife beating, but they are worse than Indians, East Asians and most significantly Arabs.

These are Whites across the world. The absolute numbers are relatively close so the comparison is just for shock value.

1. WIFE BEATING BY COUNTRY

Well Germany is pretty top here, but let's not get cocky Germany, your single mother household rates won't match Iran.

Single mother households are devastating for the future of human civilisation because these children are badly broken.
