I am badly hurt already by Bill Gates but I am just genuinely American who has strong convictions about US Declaration of Independence Preamble "We hold these truths to be self-evident..." That's why I took it seriously. My American-ness is not by artifice. I don't give a flying fuck who is Bill Gates or what. I will threaten to wipe out the entire nation if they don't adhere to US Declaration Preamble because I have strong strong convictions about rightness of Universal Human Rights Security. That is what my deepest faith and convictions are.

So United States Government will have to destroy Bill Gates physically because my Permanent Residency is not by artifice but by ordinary legitimate means.

**1. UNITED STATES GOVERNMENT KILL BILL GATES RIGHT NOW**

You see Bill Gates power exercise to Deep Interior of an organic man as myself is a great war crime and crime against humanity and I will die as a result. The world, especially all of Asia, will record all my notes reverently because I am the immortal genius behind the Final Theory of Physics, four-sphere theory and young Asian people will feel proud that one of their own was responsible. They will assess, en masse, collectively, that "United States of America does not care about securing natural rights of its own people for they will allow a rich man to kill an Asian-American even knowing this is in progress for more than a year." This will destroy American Global Hegemonic Power and America's Hegemonic Power will reduce to a small pond in Nebraska as a result. And that's all there is to it.

You, United States Government, might do what you will to angle it one way or another, but I am a straightforward law-abiding man without any genocide plan for anyone. In fact I have promoted a Natural Rights World Order. You are deluded if you think that Bill Gates is stronger than me. He's an evil deluded megalomaniac genocidal man. I am a good American.
