

A NOTE SO WHITE SUPREMACISTS UNDERSTAND WHY I AM HIGHER THAN THEM

In order to understand why I am higher and loftier than all white supremacists in the world, it will be difficult for a white supremacist because I am not white but I will consider myself loftier and higher than all white supremacists.

In order to make comprehension of this easier, I will introduce a lofty *white person*. Then I will show you why a lofty white person is higher than them. Then I will claim similarity in loftiness to the lofty white person. Then the white supremacist will be able to understand why I am higher and loftier than them.

The *white person* I will introduce is Eleanor Roosevelt the First Lady of the World, and widow of Franklin Roosevelt. She advocated the freedom and human rights – i.e. Natural Rights of all human beings – without racial restrictions. She was not the first white person to take a universalist view of course. Before her, even in America there was Thomas Paine. Security of Natural Rights including Life, Liberty and Pursuit of Happiness for all people everywhere in the world is loftier than white supremacy. With the white example, you can work through why Eleanor Roosevelt was higher and loftier than yourself, and then you can understand that I, being also of the same philosophy am also higher and loftier than you.
