

BILL GATES HOW WILL YOU ESCAPE MURDER CHARGES NOW IF I DIE?

Look Bill Gates I know your plan intimately well. I suffered your claptrap for a year. You said you had option to claim (a) suicide and (b) coronavirus if I die. This would work if no one had enough power to examine the meta power situation.

Now you have (a) Lloyd Austin, (b) John Roberts and (c) Christine Lagarde who are relatively friendly to me and will accuse you of murder if I die. How do you plan to escape murder charges?

Now be realistic, Bill Gates. Your association with Jeffrey Epstein was already a big scandal. A murder charge is quite a bit more problematic. How do you plan to beat a murder rap exactly?

1. BILL GATES ENTITLED BELIEFS

For those who are not aware, Bill Gates believes in his right to kill people. He believes that since he is big, he has the right to kill arbitrary 'little guys'. I am quite certain that he has killed many, maybe hundreds of people using meta power to destroy their interior. In fact US Security has direct confessions. He is very proud of these murders too.

2. ZULF'S BELIEFS BILL GATES IS BASICALLY A DEAD MAN WAITING FOR HIS END

Now things of the future are impossible to predict but my view is that Bill Gates is basically already dead. Now that is what I want. I want him to be physically killed by Pentagon right away. But they might not do what I want. But one way or another I think he's basically already dead. He's just waiting for the end right now.
