

OPEN LETTER TO AMERICAN GOVERNMENT MAN "DEEP THROAT"

ZULFIKAR MOINUDDIN AHMED

American Government Man "Deep Throat" since I do not know you, I will first of all point out that your asking Bill Gates why he lies so much is just about as stupid as anything I have ever heard. Do you ask a fish why a fish is a fish? Do you ask a deer why a deer is a deer? Do you ask an eagle why an eagle is an eagle? Bill Gates is a natural born evil person, a pathological liar. He will tell you that "I have power so whatever I say becomes truth." That sounds pleasant, and empowering. But it is just the same as saying "I am a purely pathological liar and I don't even give a damn what the truth is because what is truth that I did not invent in my mind?" See that is a natural born liar right there.

The name "Deep Throat" is from X-Files. I'll make this image for myself.

So you see, Deep Throat, the problem here is that I don't believe that the United States Government is willing to secure my American Natural Rights and therefore I infer, quite naturally, that you have no interest in securing Natural Rights of 4.5 billion Asians. I, who love my beloved people the Human Race, will not permit another war in Asia. It does not represent interests of the American People at all.

1. ZULF DOES NOT WANT ANY WARS IN ASIA

Look, Deep Throat, let me quite clear about this. I don't want any American Wars in Asia. And so, you will discover, that it will be quite impossible for you to

Date: December 1, 2021.

manufacture one. I am really sorry about this. I know you are enthusiastic about an Asian Manifest Destiny. But I am afraid I can't allow it.

2. SOME DIFFERENCES BETWEEN THE ATTITUDE AND POLITICAL VIEWS OF NOAM CHOMSKY AND MYSELF

I love Noam Chomsky, and I think he is a brilliant man. But you see, he is an acclaimed academic throughout his career, and I am an immortal genius, but not acclaimed at all. So we are going to be quite a bit different in our ways. He was born in 1928 so he is quite a bit older than me. In fact he was a young boy when some of the greatest of the writers and poets I admire most such as Rilke and Eliot and Musil and Modernists were writing. He was young during the rise of Nazis and he is an American Jewish man, so his fears, dreams and hopes were shaped by that period, and the horrible things that happened to European Jewish people. That immediately makes my viewpoint quite a bit different. I was born in 1973 in Bengal, during the Vietnam war. To me, Hiroshima and Nagasaki and Holocaust and other Second World War are not living memory but things from old black and white documentaries, things that were not even real. For me United Nations was not an idea but just a fact of life. Those things make a lot of difference in how we see things. He sees the world as facing different sorts of dangers and opportunities than I do. I believe in the American Dream. I believe that all men are created equal with natural rights that governments are instituted to secure. He sees the American Government as a different sort of thing than I do. For me, when United States Government fails to secure Natural Rights of Americans, then they are failing so badly that I will Auschwitz the whole lot of American Whites in Government in two minutes. He is much more willing to accept the corruption of American Government and work around it.

3. ZULF IS GIGGLING NOW

You see, American Government is founded on US Declaration of Independence Preamble, which makes the sole and fundamental purpose of the organisation to secure natural rights of Americans, including yours truly. Over the 250 years they have been all manner of nonsense far from the written purpose. But now they are going to get squeezed because they will need a *Constitutional Amendment* just to nix the purpose of government clauses in the Declaration, and for that they will face democratic politics problems because the country is not divided into liberals and conservatives in such a way that they will need a miracle. So now they are captive to Zulf's dictates. Muahahahahahaha.
