

## ZULF'S PHILOSOPHY OF HUMAN RACE AS TOTALLY TERRESTRIAL ANGELIC AND PRIMITIVE RACE

ZULFIKAR MOINUDDIN AHMED  
ZULFIKAR.AHMED@GMAIL.COM

Even the discovery of DNA in 1953 was not good enough to convince the human race that it is a single race. The Thousand Genome Project found that the Fixity Index is less than  $F_I = 0.03 - 0.07$  which implies genetic difference of populations across continents is less than 3-7%. And still there is no consensus that the human race is a single race. The genetic code in common,  $G_c$  is 99.9% of the genome of every person, and exactly the same letters for every single human being. And still there is no consensus that all human beings are the same race.

This part, the inability to be in the same place for 7-8 million years and not being able to recognise that you are the same race, is the source of *Primitivity*. In fact whether you are brown or black or yellow or white or whatever, you belong to the same race. There is no white race and no yellow race. It's one race of humans. If you are rational, you will see this instantaneously.

But if you are dull and illiterate and stupid and without any intelligent ability to understand anything, malevolent, evil, without moral virtues and totally criminal, like Bill Gates, you will have difficulties of *primitivity* and not be able to deduce that the human race is a single race.

The second is the human race is Angelic. Around 90-95% of human beings on the entire planet have convictions for good moral values; this is from World Values Survey, empirical fact. I am the great genius who discovered Universal Human Moral Nature from distributions of these things globally.

The human race is an Angelic Race. A Primitive Angelic Race but Angelic nevertheless. It's part of human genome, the morals, and not in any mythology.

Well I would not have to tell you who you are if you had some clue, now, would I?
