

US GOVERNMENT MUST PAY FOR HORRIBLE MISTREATMENT OF MY PERSON

ZULFIKAR MOINUDDIN AHMED

US Government's purpose is clearly stated in the Declaration of Independence Preamble. It is to secure American Natural Rights. By early July of 2021 I had explicitly asked them to relentlessly bomb Bill Gates and obliterate him physically. Today it is November 9 2021. Bill Gates assailed me nonstop for this entire year with Death Black Magic, which will kill me.

On one hand, it's good that at least they are doing something to keep me alive. On the other hand, they could have killed Bill Gates a year ago and I would not have to endure constant threat of horrible death with enormous suffering. In effect, then, the US Government, whose job was to secure my Natural Rights and kill murderous criminals, had allowed the criminal Bill Gates to harm me and are now testing their own skills at handling his death magic. That's like not paying someone and using them for a year to improve your skills in something. I never signed up for this job US Government. I don't remember signing a document ever that said, "In the event that we feel like, US Government will put you in harm's without your consent and not kill a murderous Evil Sorcerer who is a friend of many people in US Executive Branch who will torture you for an entire year with Death Magic and torture disturbing your sleep and not compensate you either." You see if the US Immigration papers had that I would not have signed it at all. I will complain to the US Supreme Court that US Government has violated my contract with them.

1. BILL GATES IS NO ONE TO ME

I do not know Bill Gates personally and only know him through his crimes by meta power. I gave the man an opportunity to make some money from my genius work in Finance that was the fruit of a lifetime of experience in Finance – more precisely 1995-2020 – with my great Medium Frequency Alpha Strategy that impressed the top quant fund D. E. Shaw & Co. and I am a Finance professional (with senior positions held in Science and Technology) and Bill Gates intervened without any competence in Finance with murder plot and intention to destroy my life with racial hatred. I have no contract with him and I just want him eliminated physically. I do, however, have a contract with US Government with my Permanent Residency. I put in effort to stay within bounds of American Law, and am a gentleman with Princeton education and have great ideas that I work on and immortal genius in Science. I do not understand why the US Government cannot comply with their responsibility in the contract between myself and the US Government. It is implicit in my immigration papers that they would ensure my Natural Rights are secured. I do not understand why they do not honour the contract whose terms they gave me. I did not decide on the terms of the immigration

Date: November 9, 2021.

status contract. Why would the US Government give terms that they determined to me and then after I have fulfilled my side of the obligations, they do not fulfill theirs? I don't give a damn who is Bill Gates. The US Government must honour my contract with them and eliminate Bill Gates in order to secure my Natural Rights.
