

**LLOYD AUSTIN PLEASE REVIEW SEVENTH GRADE
UNDERSTANDING OF UNITED STATES MULTI-ETHNIC
CLASSICAL LIBERAL DEMOCRATIC REPUBLIC IN
PENTAGON TOP BRASS AND FIRE FAILS**

ZULFIKAR MOINUDDIN AHMED

Our nation needs at least seventh grade level understanding of United States Government – a Multi-Ethnic Classical Liberal Democratic Republic. Please administer a test to the top brass, and retire everyone who fails the test.

1. THE DISCOVERY OF FAILURES

The Pentagon was asked to kill Bill Gates for violating death penalty laws by US Executive White People. They refuse to do this because they say that the victim has less power to hurt them than the assailant and murderer, Bill Gates.

2. MY EFFORTS TO ASSIST PENTAGON TOP BRASS

You see, Pentagon, United States is a Multi-Ethnic Classical Liberal Democratic Republic. Let's go slow because you have a lot to learn here. I won't consult my high school texts on American Government and American History AP. I will try to water it down so Pentagon top brass understands.

So if you open the text of US Declaration of Independence, right in the top few paragraphs you will see that it says that *governments* are instituted among men to secure natural rights. The government has certain powers, including power to kill people, that are taken away from the population and given to the government. With this power, governments reduce *criminality* in the population. That's *c-r-i-m-i-n-a-l-i-t-y*. Very good. There's a nice symbol for what is known as *justice* for Republics. It's a lady holding a balance and a sword, blindfolded. I'll show you a picture in a bit. This represents the government using the *sword* – ok I don't have to explain that at least. You use the sword without bias, that's represented by the *blindfold*. Then when one of the guys is a murderer, regardless of their power, and other guy is the victim of the murderer, the state punishes the guy who is the murderer.

Sometimes the murderer has more power to harm the state forces. For example, when a guy with a shotgun threatens or shoots at a seven eleven clerk, the guy with the shotgun, the *murderer* has power and the victim, the seven eleven clerk, does not have power to hurt government forces. It is usually considered miscarriage of justice when the cops decide that because the murderer has more power than the victim, that the cops ought to let him go ahead and shoot and kill the seven eleven clerk.

Does that all make sense, Pentagon top brass. Now make like a tree and kill the murderer Bill Gates please. Ok? Email me if you need more help.
