

## A NOTE THAT MIGHT SAVE THE LIVES OF US WHITE GENERALS

ZULFIKAR MOINUDDIN AHMED

First of all Antonio Guterres has already found that Bill Gates had committed Crimes Against Humanity with me. So this means UN Human Rights folks are actually on serious considerations for Crimes Against Humanity with Bill Gates and not just ordinary violation of my Natural Rights. Take that as a fact please.

UN Human Rights folks are professionals with an international mandate to investigate Human Rights Abuses and that includes against American targets. So they have mandate from UN Charter and numerous agreements that United States had agreed into with United Nations since the 1940s. US has an obligation to allow them to do their work without getting in their way by treaties, UN resolutions and so on.

Now I have asked them to scrutinise carefully your role in Bill Gates' activities. This means that you can risk to be considered Criminal Conspirators to deny my Natural Rights and in addition for Crimes Against Humanity against me, an American, with valid Permanent Residency and 33 years in the nation.

If you are found to be corrupt government officials of United States they will consider you for execution in trials for holding the criminal Bill Gates responsible for Crimes Against Humanity and various other deliberate violations of my Natural Rights.

Now you may hold Government positions now and since US Declaration explicitly says the purpose of Government is to secure all American – and ergo my – Natural Rights, the UN Human Rights lawyers, workers etc. can ask President and Senate to remove you from Government office and let them try you as Conspirators of Bill Gates.

Now if you try to use your current powers to use a US Veto to stop their process then you will certainly be considered corrupt. Remember that Republic will preserve itself brutally killing thousands when existentially challenged. So United States will preserve itself, throw you to trials to be killed by UN Human Rights trials and be done with you.

Now the right answer is that you should not just co-operate with UN Human Rights workers but actively seek to bring Bill Gates to justice and secure my Natural Rights.

### 1. WHAT ABOUT BILL GATES' POWER

Don't believe his power. Believe US Declaration, US Constitution, other laws of the Republic. Otherwise you are indeed corrupt officials and ought to be considered Traitors to the US Declaration and enemies of Natural Rights of American people.

---

*Date:* July 13, 2021.

Now suppose you say well, reality is that Bill Gates does have a lot of power, and we ought to be careful. In that case US is threatened existentially, because US Generals are kowtowing to power of a man who says "Natural Rights are claptrap". The best thing to do is just relentlessly bomb him and obliterate his body. That way you were the ones who got rid of a serious National Security Threat.
