

**MESSAGE TO ENGLAND, FRANCE, GERMANY, JAPAN,
CHINA, AND RUSSIA OF NOVEMBER 13 2021**

I want to give my message here to governments of England, France, Germany, Japan, China, and Russia. I won't go into introductions, since you know who I am. I am the immortal genius behind Four-Sphere Theory and the man of Great Conscience who has suffered for my people and stand against the *Enemies of Liberty of the Human Race*. You know how much I have suffered, and I appreciate the respect for my words.

I need some preparations of a *credible threat* for occupation of Washington by Thanksgiving where my compatriots in America will celebrate with feasts the ritual slaughter of the Native Americans. That is November 25 2021. I need your militaries to prepare plans for occupation of Washington jointly as a contingency. I want you to ban all nuclear weapons on Earth in United Nations Security Council to prepare for this.

As you all know, Bill Gates and his wealthy white American backers have been plotting a White "Master Race" World Order and I have been on the front-line on this war to secure the Liberty of my Beloved People the Human Race. I will define formally *Enemies of Liberty of the Human Race* as an unknown group of people including these.

Whether the White People of US Executive Branch are willing allies of the *Enemies of Liberty of the Human Race* or they are mere useful instruments I do not know. But what is clear to me is that a *credible threat* for occupation of Washington would be necessary to compel them to wipe out the known elements of *Enemies of Liberty of the Human Race*. I want you to arrange such a threat immediately.

As you know the demands of the duty of Conscience are great for a man like myself. Try not to destroy all of Washington please. The architecture has historical value. Just threaten them, don't do anything drastic like wiping out all of Washington with a large mushroom cloud. That will make me look bad.

Also don't use your national soldier uniforms. Do you have enough UN Peace-keeping uniforms for your entire military? Order that immediately. You can't go around wearing German and Japanese and Chinese and German and English military uniforms in Washington. That would be a faux pas.
