

LECTURES ON HOW TO KILL PEOPLE PROPERLY FOR ALL PEOPLE ESPECIALLY FBI

ZULFIKAR MOINUDDIN AHMED

1. PREAMBLE

I hold these truths to be self-evident that all men in the world in every continent and of every ethnicity and religion are created equal, that they are all without exception endowed by their Creator, and not by other human beings or organisations, certain natural rights, that among them are Life, Liberty, and Pursuit of Happiness, that governments are instituted among men to secure these rights.

2. ILLEGITIMACY OF VIOLATION OF NATURAL RIGHTS

This is a note that explains my official position on proper methods of killing people. I am mathematically precise, and note that I do not believe that you have any right to violate *any natural rights without just cause that is explicit*. I want to ensure that FBI understands this. You cannot lock me up on trumped up frivolous and outrageous charges that I would be a threat to Bill Gates physically while I have no fire-arms, had been shot as a child and absolutely no record of ever even shooting at small birds let alone people and am kind to baby rabbits generally.

Having said that, let us assume that you have just cause. In my case, Bill Gates used illegitimate power to invade my Deep Interior and cause great devastation to my interior and Ancestral heritage in meta, and therefore I see just cause to *wanting him dead and erased from existence*.

3. STATE HAS TO DO THE DASTARDLY DEED

Modern norms disallow me from taking a sniper rifle and going over 2100 miles away and sniping his temple with Jason Bourne precision. This is a great relief, because I am not actually good at that sort of task. It would be like me walking on water. It would be like me flying in the clouds on a nice Texas night where lovers are holding hands below and kissing and looking at the night sky and Zulf would be saying hello to them while my ears would be like flapping pink elephant ears.

In other words, that's not *realistic*. FBI is particularly bad at assessing what is *realistic* threat and what is only a threat that works on gullible five year old trusting children. FBI is greatly confident that the latter type need to be addressed with political repression.

It is quite funny to me that the most murderous organisation on Earth, United States Government, pretends to be finicky about threats from unarmed people to others 2100 miles away while they kill 11,200+/-223 people who are totally unknown to them using drones for frivolous reasons or no reason at all. That is *ironic*.

4. ON TO METHODS

The state is the murdering arm in America, and not individuals. The best way to off someone in America is to *cajole the murder-experts of the world, the United States Government*. That is, for good or for worse, the only way to legitimately kill anyone at all in the United States.

But the good news is that United States is always willing and ready to give them something to shoot. It's been like that from 1776. And so anyone who wants to kill someone is foolish to do it themselves. They should find a way for the murder-experts on the entire Earth, United States Government to do those things.
