

**UNITED STATES OF AMERICA YOU WILL BE SOON ASIAN
STATES OF AMERICA IF YOU DON'T KILL BILL GATES
RIGHT AWAY**

ZULFIKAR MOINUDDIN AHMED

Bill Gates is a high schooler without a college degree without any sense of strategy that a five year old can do playing a video game. Why would you allow this man to harm the Deep Interior of an Asian-American in the first place.

Now Unified Asia is considering and trying to consolidate Asian meta and he is stubborn. You won a war against Japan and never won any other wars in Asia at all, and now you are letting Bill Gates push United States of America into a situation where Asian Power slowly overwhelms all America.

Do you know anything about Asia at all, really? Asia will be slowly trying to consolidate Asian meta and keep going for centuries like the rising tide and in the end you'll have Bill Gates keep repeating "Whites are superior. Whites are superior" and all of America is sunk underneath an ocean of Asian power.

Why do you take such risks to National Security? My Deep Interior was not meant for white people. Why did you not secure my Natural Rights?

Well it's too late now. You can deal with this problem yourself. I am a law abiding American trying to reach my American Dream and suddenly find that this "Bill Gates" is a racial murderer. Now if America disappears, don't blame me. You are to blame, because you don't respect the American laws at all and give great privileges to every murderous racial criminal. No one will even give a damn if you are that corrupt. They'll treat you like the rotten last days of Babylon.

1. SIONARA TO AMERICAN WORLD ORDER

The cause of end of American World Order is Bill Gates. He did such horrible things to Zulf's meta, so disgusting and vampyric, that Asia was forced to keep up the consider which inevitably led to the End of American World Order because American Government was dull and did not realise that they had to kill Bill Gates.

Asian consider slowly unravelled Bill Gates work on Zulf's meta and eventually normalised Zulf's Natural Rights World Order.
