

HOW BILL GATES HAD STARVED ME OF ALL INCOME INCLUDING BLOCKING MY PERSONAL BANK ACCOUNT AT WELLS FARGO OUT OF RACIAL HATRED

ZULFIKAR MOINUDDIN AHMED

Bill Gates not only denied me any income from my Genius work in Finance from which he was making money from D. E. Shaw & Co. That \$120 million could have saved me from a year's worth of humiliation and denigration from my aunt and others because I do not have my own pad at 48, but he used his meta power to blockade my Personal Bank Account at Wells Fargo. He has some grand plan to deny all non-white Americans any income, and channeling any money to our accounts instead to random anonymous white people for his White Control world order. He did this close to a year ago, and US Government did not do anything about it. How such a malevolent criminal without any respect for US Laws was not slaughtered by the US Government is a serious question.

China tried to put some money with me but was unable to put it in my bank account because of Bill Gates' blockade.

I blame the United States Government for all of this. The United States Government had coddled this uber-criminal who defies all US Laws and does arbitrary illegal, criminal, and Racially motivated hateful activities all day and all night and all day and all night and US Government is convinced that this worthless cunt is actually necessary for the US Economy. Of course no such thing is remotely true. He produced third rate software and use all manner of power tricks to harm his competitors and steal their money. That he is *living* at all is an embarrassment to the US Government and shows how incompetent and corrupt the US Government is. Is he dead yet? Of course not. US Government will bend over backward to pretend that this criminal worthless malevolent lawless cunt, this miserable wretch and insignificant amoeba, Bill Gates is actually worth not obliterating and slaughtering immediately. This will be a grave mark on the record of the United States Government because it's not right for 320 million Americans that US Government will take their hard earned money, and treat these vile rotten criminal scumbags like VIP with it. This is insult to injury to the highest order, salt and vinegar with some Oriental spices on the wounds of the American people.

To make things clear, United States is a Multi-Ethnic Classical Liberal Democratic Republic. Bill Gates has absolutely no legal right to blockade any money coming to me. United States Government did not arrest him for killing people for decades, breaking every criminal law every commercial law. So we all have to ask ourselves, why do we pay taxes to give these people jobs in the first place if they are going to take our money and *fuck us up the ass hard* all day all night for decades and decades?
