

MY GREAT OVERTHROW OF WESTERN INTELLECTUAL TRADITION FROM SOCRATES TO KANT TO NIETZSCHE

ZULFIKAR MOINUDDIN AHMED

I, Zulfikar Moinuddin Ahmed, celebrate the overthrow of the entire Western Intellectual Tradition from Socrates to Immanuel Kant to Friedrich Nietzsche, with my great empirical discovery of ethnicity independence of universal human moral nature.

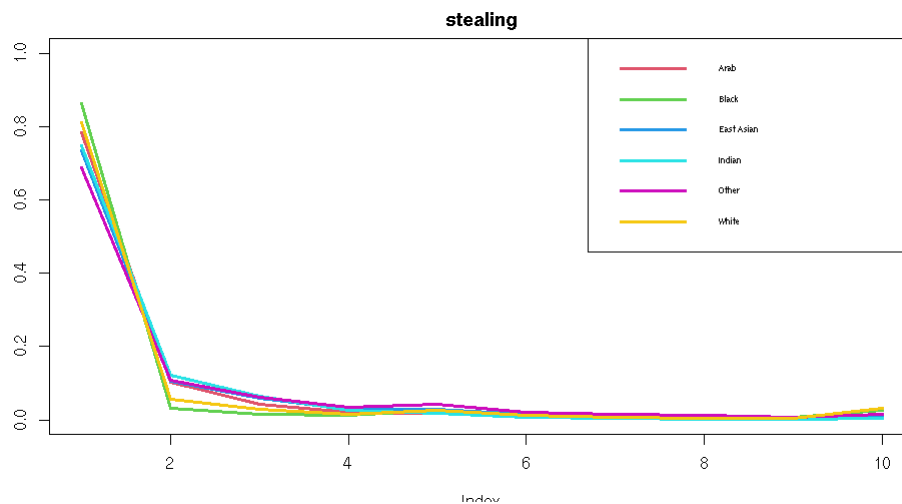

In the entire history of human race, never has anyone so clearly overthrown the greatest of all past geniuses in philosophy as I have with a profound discovery that human moral nature is evolutionary genetic in its source and not a product of Reason at all.

1. BRIEF OVERVIEW OF HISTORY OF MORALITY IN WESTERN TRADITION

From Plato and Aristotle to Immanuel Kant to Friedrich Nietzsche, a foundational idea that had been firmly established is the notion that morality is founded in Reason. There were some variations on this idea, but mostly far from the center of Western Intellectual Tradition.

I have overthrown this fundamental foundation of Western Intellectual Tradition once and for all with my profound discovery that human moral nature is ethnicity-independent and not a product of Reason but part of our evolutionary genetic heritage.

2. EXAMPLE FROM STEALING

Date: October 30, 2021.

Here you can see the distribution of moral values about stealing from around the world, separated out by ethnicity. This is typical about fundamental moral values. This regularity was discovered first by myself in the past year roughly, early 2021 or late 2020. Before this discovery the entire human race had no knowledge about the source of morality in human beings at all.

3. THE GREATEST INTELLECTUAL REVOLUTION IN WESTERN HISTORY

My discovery marks the greatest Intellectual Revolution in all of Western History for today for the first time we have certain knowledge about the source of morality, something that was unknown to all Enlightenment thinkers and even the great Friedrich Nietzsche was vastly uncertain and quite confused about it. And I, Zulfikar Moinuddin Ahmed, have led humanity from Darkness of Ignorance to Light of Knowledge for the first time.
