

TO ALL NATIONS ON EARTH

ZULFIKAR MOINUDDIN AHMED

Dear Nations on Earth,

I am Zulf. I have not yet verified whether United States Government is a legitimate organisation that actually is governed by the stated Constitutional directives or not. I will ask that you distrust all efforts to influence or intervene by American Government in your Nation's affairs till I can verify that they are indeed a legitimate organisation that implement the laws and Constitutional mandates. I have found extremely anomalous behaviour by the American government that put grave doubts about whether they are a legitimate government or a criminal front organisation that simply fools the world with some of the laws and Constitution of the nation.

I strongly advise all Nations to completely distrust all American Government efforts until I give you a green light after I verify whether they are totally a criminal ring or whether they are genuinely interested in following principles of US Declaration Preamble.

Please hold off on trusting them at all till I give you a green light after I am convinced that they are in fact a real government.
