

# MY PRIDE IN AVOIDING ANTI-SEMITISM

ZULFIKAR MOINUDDIN AHMED

## 1. MY POSITIONS ON RACE

I believe all people are my people and am not anti-Semitic. In fact I love Jewish people *usually*. Now this would be trivial to be not anti-Semitic for me since in High School I was fine with my friend Howard Jeruchimowitz and Kenneth Rosenberg in John Adams High School and then I had so many friends from Ohio State University Ross Program that I attended and I knew Keith and Brian Conrad and Josh Fischman, and many other Jewish people. I attended Princeton and I had Peter Oszvath as a friend and mentor.

However, some things did not go right. After Israel's Mossad blew up Twin Towers, in New York I was not aware right away but Muslim people were not considered well in America. Then for whatever reasons Dan Strock had harmed my career in Finance and Mathematics and I did not know. Then Henry Jarecki was suspicious that I had stolen something from him which is absurd, and then Noia Efrat cut up my eyes and harmed me for a decade.

My saving grace in the end was that I was just not a suspicious malicious or vengeful person and *simply did not know any of this for years*. And so I was not anti-Semitic as a result although I did spend a lot of time screaming about how Israel's Mossad did 9/11.

But then Bill Gates was so egregious in harming me, it was overwhelming evil and I just retaliated against him

because D. E. Shaw & Co. was quite willing to pay me my \$120 million.

## 2. LESSON I AVOIDED ANTI-SEMITIC CLAPTRAP BECAUSE I AM SUPERIOR

My moral Superiority allowed me not to make a bad decision and consider all sorts of ethnic poison and still maintain all people are my people even though I certainly was put under pressure by certain bad things some Jewish people had done to me. I overcame this because I am much bigger man. Now I did send a fairly vile email to Sheldon Adelson before he died to scare the bejeesus out of him and dissuade him from nuking Iran. I got in a lot of trouble for that with the FBI. *However*, I gave myself highest grade when Iran was in the end not nuked even during Trump Administration.

## 3. CONCLUSION: I AM NOT ANTI-SEMITIC BECAUSE I AM GREAT

If I were even a notch lower than Superior Character I might have become anti-Semitism but since I am benevolent, resilient and wise, good and just, I was just flying through it all like a dervish dancer without a stain.
