

**OPEN LETTER TO PRIMITIVE MINDED SLIMY LITTLE CUNT
BILL GATES**

Dear Primitive Minded Slimy Little Cunt Bill Gates,

I am an immortal genius whose four-sphere theory will be a greater revelation of Human Understanding of Nature than anything by Isaac Newton, Nicolas Copernicus, Erwin Schroedinger, Paul Dirac, Richard Feynman, Albert Einstein and the entire tradition of Western and World Science. I am an urban intellectual elite who is quite comfortable with literati in London, New York, Paris, San Francisco, Rome and Tokyo.

How dare a low slimy little cunt like me without a single accomplishment to your name that is even comparable to some of my mediocre works dare to disturb my sleep and peace right in American Soil? Your puny hick illiterate primitive mind would not even reach my immortal intellectual level in ten thousand years you primitive hick illiterate charlatan. What have you done? Parrots can keep repeating trivia. Why don't you do a few of the Stanford Ph.D. Mathematics Quals yourself under monitoring and I will reconsider. You are an vile knave and a totally slimy little cunt. Your intellect is thousands of levels below mine you stupid primitive savage.

Thank you,
Zulfikar Moinuddin Ahmed
