

DREAMS AND GOALS

ZULFIKAR MOINUDDIN AHMED

I am on disability living with an abusive aunt right now without serious income in Allen Texas. I am 48. I am quite outrageously angry with the United States Government because although I have lived in America since 1987 and have had a proper Permanent Residency since 1997, and therefore US Government is totally obligated to secure my Natural Rights, they have totally ignored my vast number of emails that Bill Gates has cut into my eyes and blockaded \$120 million earning from D. E. Shaw & Co. and they simply cannot do their job. The US Government failed to secure my Natural Rights for an entire year as Bill Gates was causing massive damage to my eyes using all manner of horrible evil White Supremacist claptrap and the murderous cunt is not being killed by the US Government still.

In the past decade I have overthrown the extant theories of macroscopic physics – theories of Maxwell, Schroedinger and Einstein – and established my Four-Sphere Theory. I also worked on a highly successful Alpha strategy that Bill Gates put in \$2 bn but then out of extraordinary malevolent racial hatred totally starved me of my legitimate income of \$120 million that is not his call. D. E. Shaw & Co. is fine with paying this but he has blockaded them from paying my money to me. This is my money, and US Government has done nothing to get my my goddam money. I am sitting getting harmed by Bill Gates every day as he refuses to leave my meta and continues to harm me every day. I have asked the US Defense Department to relentlessly bomb Bill Gates until he is obliterated but they have not done this either.

I have a registered company Thyself Inc. that I want to expand with my money and other investments moving to San Francisco. Because of the total incompetence of the US Government I am stuck without any serious income while my mom is dying in Bengal. This US Government is so totally incompetent all the senior officials ought to be thrown out unceremoniously into the East River for their incompetence. They sit around worrying about a malevolent racist cunt who is a total criminal while letting me rot and hanging out to dry while they don't have problems gobbling up people's hard earned money to pay for their lives while providing service of sucking dick to the rich criminal cunts of the world. Why do we need these fucks at all?

1. ZULF'S RACIAL VIEWS

The Human Race is a Single Race. Anyone who believes that there are multiple races in Human Race are primitive savages who are living in ignorance and darkness. I don't care about consensus at all on this; I am of the view that I am right so I am right. I don't get into consensus and agreement on basic truths. I do have a huge amount of scientific evidence to stand on, starting with Sewall Wright's fixation index being 0.03-0.07 by the latest estimates and 99.9% of the letters of the entire

human genome being exactly identical, which is pretty strong for rational deduction. You want to stay in primitive savage ignorant darkness, that's your problem. Don't come crying to Zulf one day with weeping in regret of how you wasted your one life believing in fantasies ok?
