

## AMERICAN ENTERPRISE INSTITUTE PREPARE SOME ORGANISATION FOR ARNOLD SCHWARZENEGGER

ZULFIKAR MOINUDDIN AHMED

American Enterprise Institute, Arnold Schwarzenegger-Barack Obama team will be able to navigate the Nation out of total collapse of the Republican Party. Could you please create a special organisation with Mr. Schwarzenegger as the main leader and Mr. Obama as a secondary leader and invite Mr. George F. Will immediately and produce accommodations for a serious political campaign. You don't have face recognition of Mr. Schwarzenegger and without Obama you will have rabid progressives tyrannize over all things that move in the nation. I like progressives but you will have all manner of problems like laws against eating anything that is not vegan and so on. Don't go there. Just let these gentlemen handle the White Master Race Supremacists that have corrupted part of US Government.

Do this right away. Don't wait till after Doomsday comes and goes and we live in a war ravaged planet with all manner of high prices of chewing gum and people eating scorpions crawling in the desert and so on.

### 1. CRISIS OF AMERICAN CONSERVATISM

American Conservatism is difficult, because we are founded during Romantic Era, and French Revolution. That makes conservatism quite difficult, because what are you conserving exactly? The country just got founded in 1776 based on new principles never before seen on Earth before the French Revolution. So American Conservatism was always lost and always confused. There was no Altar and Throne before anyway. Now fast forward to Cold War. Sigh of relief. Conservatives will now be anti-Communist. Then 1989 Berlin Wall falls. Now what? Conservatives will be anti-Muslim? That was a disastrous turn of events. You see Muslims did not actually do anything on September 11 2001, so anti-Muslim was a disaster. You can't have this way of being against something. So you want to be what? You want to be Protestant Zealots? Catholic Zealots? A mishmash of this that and the other thing? George F. Will is the only man who even addressed these serious issues in *The Conservative Sentiment*. You can't do Racial Supremacy. You'll have Washington occupied in a few months. So Arnold Schwarzenegger and George F. Will are your Saviours.
