

## I AM AN IMMORTAL GENIUS NOT A HOTSHOT

ZULFIKAR MOINUDDIN AHMED

I am not a Hotshot at all. I am an Immortal Genius. The difference is very large. You see, the easiest way to understand the difference is to ask: Who gets blamed when someone is (a) a hotshot, and (b) an immortal genius when they are *mistreated*.

With a hotshot, the blame radius when they are mistreated is maybe a Department of two, a number of leaders in a field, a tenure committee, maybe some institutions like IBM or government agencies. That's the scale.

When an immortal genius gets mistreated, none of these scales are applicable at all. Who will be blamed is *The Western Civilisation in its entirety*. That is the major difference. It's a different scale affair. I am in fact not a hotshot and do not have any interest in being one. I am an immortal genius. And that's just how it is. It's not complicated.
