

LETTER TO ENGLAND'S ROYAL HOUSE NOVEMBER 26 2021

ZULFIKAR MOINUDDIN AHMED

Dear Queen Elizabeth,

It is frightening to me that Bill Gates, who is a career criminal and charlatan, has been able to use illicit powers to deny me my natural rights in the heart of America. He is a total charlatan and does not even understand books like Steven Pinker's *Enlightenment Now* but puts all manner of self-promotion claiming it to be his favourite book of all time to deceive the world as he has done regarding his SAT score—he actually received a 1290 and promoted 1590—and his coding abilities which are nonexistent.

Is it possible for England to put my \$620 million in a Bank of England account entitled *Zulf's Piggy Bank (Do Not Touch)* and offer me employment immediately as Special Attache of United Nations to work in United States? I have immigration papers USCIS# 046-077-179 expiring in 2031 and have no trouble with work authorisation. In fact I can naturalise easily.

Can Her Highness hurry up with this? My personal and family life is in crisis without money and I need to exit the horrible daily abuse that I have to endure from my aunt for staying here.

All of Finance could not get past Bill Gates blockades to get me any relief in income in the past six months. The \$620 million is mine, not Bill Gates. So this is not a trivial issue for England.

Thank you, ZULFIKAR MOINUDDIN AHMED
