

CAN BILL GATES MAKE AMERICAN WHITE PEOPLE IN GOVERNMENT ALL LIE FOR HIM?

ZULFIKAR MOINUDDIN AHMED

Bill Gates wants to kill me and then coerce all 1.4 million American White People in Government lie on his behalf and say he was innocent.

Zulf will assess the likelihood of success in the Demon's bold ploy.

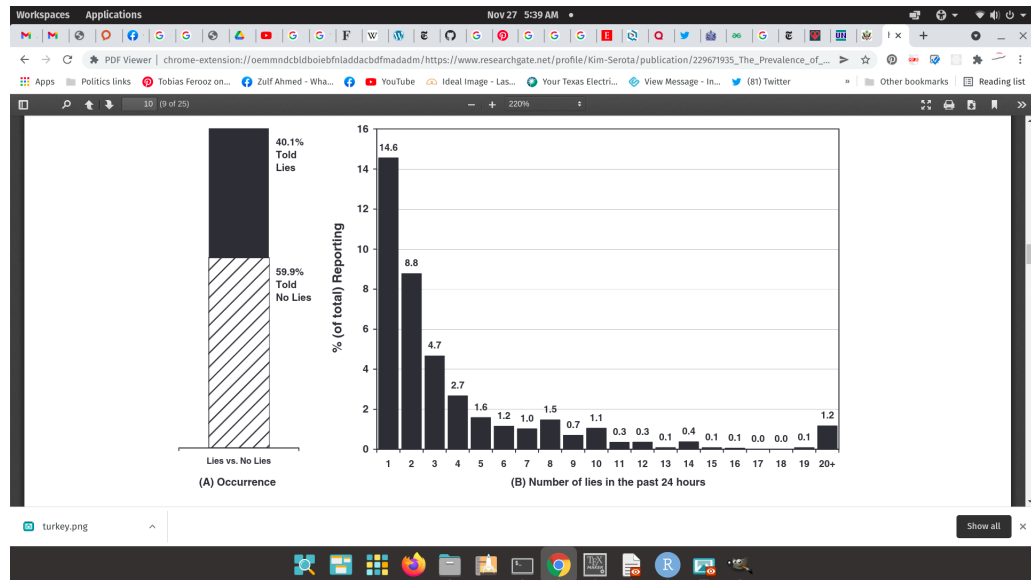

The tool this Archangel will employ for this assessment is examining the *distribution of lies per day for American population*. A good Archangel would never merely guess things of this sort by *intuition*. You see, I might be an Archangel, but my Consciousness is due to human DNA, and therefore, being a *Wise Archangel* I rely on more serious analysis than these wretched illiterate Demons.

I immediately return to my education and professional experiences, as I am a Princetonian with magna cum laude in Mathematics and I have been doing Finance professionally since 1995.

Let us see now. I will make use of a great work published in 2010 by three researchers, Kim B. Serota, Timothy R. Levine, and Franklin J. Boster. I will immediately mention that distributional analysis for their studies was first done by myself. I was the first to discover an *Exponential Distribution* in their data. I personally thank these great people for I am about to use this to save the entire world from the Evil Sorcerer and Demon Bill Gates.

The data shows that lies per day, at least self-reported sort, are zero for 60% of Americans, and there is an exponential distribution.

So for forty percent of Americans who do lie, we have this exponential distribution. I won't give a precise λ for it here but the fit is very strong I know from experience.

We make the assumption that people are not going to change their habitual patterns even with some money handed to lie. That's a reasonable assumption. Let's assume for fun that people who tell 5 or more lies per day are happy to take money from Bill Gates and lie and say he is innocent of murdering Zulf.

Now 30.8% of people will lie less than 4 times a day. So Bill Gates will be restricted with our assumptions to 9.2% of American Government White People. The rest will likely refuse to lie for Bill Gates and publicly announce that Bill Gates murdered Zulf.

That does not bode well for the Demon's Evil Plot at all. White People are tremendously sympathetic to Evil Murderers by and large, but they are unlikely to have overwhelming consensus that they will all lie and say he is innocent of murder when he is most clearly a murderer. He does have this 9.2% lying population to corrupt.

1. DEMON BILL GATES

This is an *Angelic World*, Demon. You can see from the lying distribution of Americans which is unlikely to differ from that of all people of Earth. They are an *Angelic Race*. I am an Archangel. Only a Demon would be arrogant enough to contemplate not only killing me, an Archangel, in an Angelic World but in addition coerce a number of people of an Angelic Race to lie to protect his interests. You do have the proper hubris of Demons. Your hubris is not in question, Demon. But it is not going to work. The Angelic Race will slaughter you. It's our turf, Demon. It's Angelic turf, and you don't belong here.
