

EURASIAN ECONOMIC INTEGRATION THREAT

ZULFIKAR MOINUDDIN AHMED

You are foolish, United States Government. You are truly foolish to annoy Zulf. Let's look at the global economy. United States has \$22.2 trillion GDP. Europe has \$15.2 trillion GDP, and Asia \$38.6.

I threaten you with *Eurasian Economic Integration Plan*. It does not exist yet, but I can snap my fingers and it will exist.

Looks to me like you would be reduced to 40% the size of Eurasian Economy in a snap of a finger, United States Government. What are you going to do then, huh? It's easy peasy for me. And how will you manage as an economy with landmass so far from Eurasia?

It looks to me like you should have killed and wiped out Bill Gates a year ago instead of annoying Zulf and sabotaging my legitimate earnings, doesn't it?
