

## CHINA BE A DARLING AND FIX UP THE IMPERIAL PALACE OF THE LAST DYNASTY AND SEND THEM TO ENGLAND

ZULFIKAR MOINUDDIN AHMED

China, send the descendents of the last Chinese Dynasty to England and tell them to say hello and wish long life and wonderous friendship of the royal families till the end of the world. Good fashionable clothing, send singers and other artists and remember to send *scribes to calligraphy the event*. Then do some visits to Tate Museum, and get the scribes to write about the beauty and grace of all sorts of things. Tell the royals to talk nonstop about peace and harmony. Present the English Crown with the sort of things English would pilfer from your culture and put in British Museum anyway for free. You get that Xi Jinping? Do not mess up. Zulf will fix up your situation. Zulf has your back. Zulf has the Queen's back too. Make this just a *ceremonial visit*. Do not talk about war and peace or anything official. Bring good high falutin gifts and things.

### 1. ZULF WILL EXPLAIN HOW TO DO THIS RIGHT

First of all you need *Celestial* and *Eternal* in titles of your Royals. Send diplomats who deflect all low level concerns like problems that West likes like Hong Kong and Xinjiang and Taiwan. Forbid all mention of Opium Wars and Hundred Years of Humiliation etc. The Royals ought to be floofier than thou even more peace and Heavenly than the Celestial Angels. No mention of any military things. Just bonds of love between our two peoples. Make a wing of Chinese Celestial Imperial Palace that is luxurious and special for English Royal visit.

Talk about defense and other various mundane things directly in UNSC not on Royal Visits for peaceful Heavenly Celestial peace and friendship.

You will thank Zulf. Do not negotiate anything. Just pledge all sorts of peace and ensure that they are not in the know about problems. Those things put aside.

Trust me on this. This will produce great results. Don't do treaties. Do various photographs with flowers and other floofy things.

### 2. FOR TRIP USE BLUE NOT RED

Look at this blue or lighter for kimono and other things.

Use lots of blue, peace from the Celestial Heavens. You can use patterns with silver and darker blue or greens. Red is not good. Even those handfans blue, umbrella. Peace and benevolence ought to be the themes.

If you already don't have a Celestial Imperial Blue Palace, build one that is grand. Don't overdo gold, try silver instead. It should be cool and exude Celestial Eternal Heavenly Peace.

Train her majesty to reduce rancor in demeanour and Divine Angelicity in her mannerisms.

Do not call her your *secret weapon* ever. Zulf is an Archangel of billions of years. Listen to Zulf. Aqua-Celestuality is marvelous. It works.
