

## ZULF'S COMMENTS TO UNITED STATES GOVERNMENT

ZULFIKAR MOINUDDIN AHMED

This will be a bit more involved than my previous comments.

You see, United States Government, I am not happy with what you have done here on the matter of Bill Gates having cut into my deep interior and destroying my life, almost killing me in November 4 2020 and he is still a grave threat to my life and you haven't done what I think would have been the most reasonable response the moment you learned about it – i.e. physically kill him immediately. You might think that is odd, but no other country in the world does. England and Germany and France all would have killed him physically. But for whatever reasons you did not, and I am not impressed. The fact of your very poor response while Bill Gates harmed me day and night for over a year leads me to believe that out of 1.4 million white people in government, not 1-5% but 80-90 are pure criminal rotten scumbags.

You see, my natural rights were threatened, and so I don't feel more obligation to you than to my own sense of right and wrong and my own Conscience. I am not under the impression that you are a *legitimate government* at the moment. Why? Because in order for a legitimate government of America, the criteria are not secret; they are listed in the US Declaration of Independence Preamble. Your various excuses about *evolution of government* are total rubbish. There has never been a Constitutional Amendment to replace the Preamble, and I understand rational governments based on legitimacy of Constitution quite well, thank you very much.

Why don't you fire every single Bill Gates supporter in government immediately, especially higher up, for their own safety because I will want them put to death and will succeed eventually. Fire them, and then get rid of Bill Gates immediately.

### 1. BILL GATES IS YOUR CREATION

Why did I, an American trying to get my life in order, have to work to discover that Bill Gates is a total charlatan, a scam artist, whose self-promotion about his own intellectual gifts and abilities are all lies? Why didn't *you* do this in the early 1970s? Why did you allow him to get used to racial murder instead of killing him in the 1980s? All things considered, I have to hold you, the United States Government fully responsible for all harm done to my life, health, career, future, personal life, to *you, the United States Government* even though you want to pretend that Bill Gates is independent agent. He's not. You created this monster. You coddled him when you knew he was a rotten evil criminal for four decades.

I will soon enough file another case with International Criminal Court alleging that high level United States Government officials are supporting and empowering a racial murderer who has been directly harming me for more than a year.

---

*Date:* December 15, 2021.

## 2. LET ME EXPLAIN WHAT YOU HAVE DONE

You see this man Bill Gates? Well he never had any gifts in intellect. He is *not an intellectual genius at all*. He is not a good coder at all. He is not good at mathematics beyond high school level at all. He is not a good business leader.

He is a pure *charlatan*, trickster, con man. He is good at lying without any shame, nonstop, and he is good at pretending to be a soft-spoken gentleman for the camera and interviews. He is in reality a totally ignorant dipshit whose shtick is to pretend that he is a super-prodigy genius. He is an actor who is in fact one of the most murderous dangerous genocidal racial criminals this world has ever produced.

Let's evaluate this for a moment. You have been coddling and respecting and giving all manner of accolades to someone who has *no positive benefit to mankind at all* (but pretends to be a great philanthropist), while what he actually does day and night is harm people with high power black magic, US War meta, disgusting destruction of other people's meta, destroys careers, livelihoods. In other words, he is like a classical monster, a Minotaur, or a Dragon, or some other horrible monster that is a serious threat to American People, 330 million people, and the human race, 8 billion people.

Why would you, the United States Government do anything other than destroy and kill him? Your job, ostensibly, is to ensure natural rights of all Americans are secure. By keeping him alive and supporting him you have not only failed to do your job but done exactly the opposite.

Can you explain to the American people and the world at large what possessed you to have this malevolence towards the human race? What did the American People do to you that they deserved this? Our tax money is not enough to feed you? What the fuck?

## 3. AMERICAN GOVERNMENT DOES NOT DO ENOUGH TO JUSTIFY TAXES AT ALL

Let's take my example. I worked hard in industry 1995-2008 and paid roughly \$330,000 in taxes. Then in the past 13 years I did get some disability, so that's \$1800 per month roughly. Let's put that generously at \$280,000. So you think that I am scraping off American Treasury. Except that I have legitimate income of \$620 *million* that Bill Gates blocked and then United States Government, instead of securing my natural rights, colluded to literally *destroy me* discovered by Human Rights Watch London.

So why should anyone pay taxes? The American Government will *destroy you* colluding with career murderers when you actually earn substantial legitimate money that was the point of the American Dream. So we have 330 million Americans not being given the promised services from the *Founding of the Nation*, written into the Charter, US Declaration of Independence, Preamble and US Constitution, while they collect let me tell you how much taxes total. They collected \$1.5 trillion in taxes roughly. Now those taxes, where do they go? Well, \$768 billion went to unaccountable gangsters in NSC-68 structures. And you, the United States Government are doing what with our money? Well, you're colluding with racial murderers to destroy Zulf.

This does not seem like a good situation for either Zulf or indeed any one of 330 million Americans. Why should *anyone* pay taxes at all? They should not.

Unless United States Government delivers natural rights security reliably, no one in America ought to pay any taxes at all.
