

# **NORTHWESTERN JOURNALISM IT WAS YOUR FAILURE THAT BILL GATES THREATENS AMERICAN PEOPLE'S SAFETY AND WELL-BEING**

ZULFIKAR MOINUDDIN AHMED

I just found out the total absurd position of Northwestern University that they literally had the outrageous view that this miserable wretched huckster and career criminal murderer, this habitual pathological liar, extortionist without any education was a 'major figure', and I, the immortal genius behind Four-Sphere Theory that exceeded the genius in theoretical physics of Albert Einstein and Erwin Schroedinger, that I, the immortal genius who showed the entire human race the universal human *moral* nature with empirical data, bounding ethnicity-dependence to 6.5-9.5% of the variation of human moral values globally, that I, the great genius who showed that Aristotelian Virtue-Eudaimonia theory was valid by showing the higher moral values correlate with higher Life Satisfaction, thereby exceeding the entire Western Intellectual Tradition of Moral philosophy of Immanuel Kant, of Friedrich Schiller, and Friedrich Nietzsche who were all proven wrong by my work. They literally had the outrageous and incomprehensible view that this illiterate huckster who made some money on third rate software, was a major figure and considered me a minor figure.

This is the most outrageous failure of journalism in America. Bill Gates is a habitual murderer, and you have failed to provide American people with the duty of investigating truth, being seduced by a malevolent barbaric savage charlatan into giving the American People a false sense of security when they trust you to provide them with truth that they needed. Bill Gates has killed routinely for fifty years. Did you even know that Bill Gates is a zealous proponent of ethnic cleansing of non-whites in America? You are journalists? Really? You don't think you have any responsibility to the American people for truth that they need to be secure?

## **1. YOU ARE GIVEN FAIR WARNING TO FIX YOUR PRINCIPLES NORTHWESTERN JOURNALISM**

You have the reputation as a top journalism school, but your dismissive treatment of me has caused enormous harm to me in the past year. You must stay close to having clear view the purpose of journalism is to have clear truth and not worry about the effects, good or bad. If you do not pursue truth and pretend that your job is to manage what is 'explosive' and what is 'tame' and allow vile dangerous murderous criminals with genocidal intent to continue to plot enslavement of Asians in the country and abroad, and you are not able to gauge what your job is as journalists, it is my duty of Conscience to destroy your reputation so badly that you will not be considered fit to be in journalism for a century. I hope that you

understand this clearly. I am a good man, but I do not like people who harm me by dismissiveness and pretend to be good people doing their job.
