

## ZULF NEEDS ANOTHER SMALL TINY FAVOUR FROM HUMAN RIGHTS WATCH LONDON

ZULFIKAR MOINUDDIN AHMED

Dear Human Rights Watch London,

It's been so long. It's been so long. How are you doing my friends? It's great to see you. Anyway, now the customary and totally deceptive fake polite greetings is done, let me get to business.

I need a small tiny favour from you. I want you to totally eliminate from existence a small tiny little nation state. I'll give you its picture. It's a pesky little critter.

A little miserable wretch, Bill Gates, has used his black magic and other illegitimate powers such as US War, German War, English War and other powers to harm by body meta and has proceeded to kill me physically introducing painful physical pain to my body that is excruciating. The government of this pesky little state, the United States of America, has decided to support the evil racial murderer instead of securing my natural rights and getting rid of and killing him for criminal violations of national and international law.

I want you to begin producing a legitimate way of permanently removing this little state from existence for these and other problems.

Good luck. You look great by the way. I believe in you!

Thanks,

Zulfikar Moinuddin Ahmed

### 1. BE VERY CAREFUL ABOUT ACCUSATIONS

It is not exactly true that the United States always allows people to violate natural rights of others based on any given set of criteria. Be careful about listing the accusations against the United States of the type: United States allows those with characteristics  $X_1, \dots, X_N$  violate natural rights of those with characteristics  $Y_1, \dots, Y_M$ . Focus not on finite set of characteristics but on the very specific people Bill Gates the assailant and murderer and Zulfikar Moinuddin Ahmed the target.

The United States Government is sly and will manage to escape your grasp if you specify the wrong criteria as they will accuse you of not having the facts and produce a community of hippies in Iowa where your conditions are violated and summon them to court to swear how United States funded people with  $(X_1, \dots, X_N)$  fall in love with and have a community with  $(Y_1, \dots, Y_M)$  folks who live in harmony in potato farms by generous funding of the government. Be precise and sharp!

### 2. DO NOT LET UNITED STATES GOVERNMENT BAMBOOZLE YOU ABOUT FINANCE AND ECONOMY

I have worked at Lehman Brothers since 1995 and have exceedingly good understanding of Financial Markets and their behaviour. I can assure you that the financial markets could not give a damn about whether Bill Gates is living or dead and whether United States Government sent the A Team with a black man with big muscles and mohawk with a cigar smoking white older man to take him out or not. Financial Markets do not care about Bill Gates at all. It is the delusion of those in United States Government, who don't know much about financial markets, who would get a grade of F in any course I teach in Finance, that Financial Markets care about Bill Gates whose total net worth is \$131 billion while \$33 trillion is daily volume in the US Fed. Their ideas about what Financial markets care about is totally mediocre lack of education from being provincial and illiterate about global capital markets.

### 3. ON HRW LONDON SENIOR DIRECTORS' QUESTION OF WHY USG ALLOWED HARM TO ZULF

They can answer individually, but this is a substantial and deep question that historians of posterity will have to grapple to produce a balanced understanding of this moment in world's history. So I will put in my own comments. It is wrong to see these events out of longer historical context of American history from 1776.

You see, American White People always had a *racial genocidal strain* that did not develop anywhere in Europe. In Europe the cultures developed over roughly 3000 years locally, and eventually roughly in 1000 AD, some five centuries after the sacking of Rome, developed the Christian Europe. In contrast United States of America was a *heterogeneous settler colonial culture* and was in 1776 a nation being built without any ethnic tribal history on the soil. There developed in American psyche *Manifest Destiny* idea that was reinforced by total genocide of the native Americans. In 1830 President Andrew Jackson was enthusiastic about this with enormous support from white Americans, and in 1930 this persisted as lynchings of black Americans had not died down yet, and now we are approaching 2030 and this long momentum of genocidal destructive impulse towards nonwhite Americans was seen since 1945 in some major wars in Asia, in Korea, Vietnam, Iraq and

Afghanistan, and so the American Manifest Destiny Machine is interested in Asian Genocide.

Whatever the answer is to pacify Human Rights Watch London by United States Government, the fundamental issue here is not one man's exceptional and surprising treatment by an otherwise natural rights oriented United States Government, but something else; United States Government, and the population are virtually untouched by the changes in the international outlook that United Nations and International Law and Human Rights etc. that are familiar to you and to most countries in the world. United States belongs in a different normal than all that. Only specialists trained in international law and human rights are familiar with all that here in America, and especially in the United States Government.

Human Rights Watch London would be acting irresponsibility if you were not able to decision based on the dangers to human rights of 100 million non-white Americans including myself and 4.5 billion Asians. This particular event between Bill Gates and myself is a *symptom* of a much more significant problem in white people in American Government for several centuries, and it is not quite right to call the problem 'racial bias'; it is much deeper and more important for American white identity than just racial bias. As senior leaders in issues of human rights, you ought to collaborate and be advised by historians and social scientists to address the much more difficult problem which will lead to a global man-made catastrophe if undaddressed.

#### 4. ZULF IS NOT THE INSTIGATOR OF A WORLD WAR BUT UNITED STATES GOVERNMENT

I am American. My immigration papers are from 1997. My USCIS# 046-077-179 Permanent Residency Card expires in 2031.

I have an implicit legal contract with the United States Government in my immigration papers where – in addition to the United States Declaration of Independence Preamble which specifies the *sole purpose* of institution of governments among men to secure natural rights, there is a demand that I shall be subject to United States Law and implicitly shall have my natural rights secured by resources of the government. So if United States Government produces a breach in their contract with me by *totally refusing to secure my natural rights* which would require them to eliminate Bill Gates now physically, then obviously they will be held responsible for instigating a World War. They are foolish to think that they will eventually win such a war because American People are not going to be enthusiastic about fighting in a war against Asia at all. Asia does not pose enough of a threat and I know New York Times and other have begun war propaganda against China, but this is not enough. I will increase the threat of total nuclear annihilation of all American Cities simultaneously as my life continues to be threatened.

#### 5. BILL GATES IS INFERIOR TO ME IN MANY WAYS

First of all, Bill Gates is not a college graduate. He studied electronics in high school instead of gaining broader education that I had. Let's start there. Bill Gates attended high school in Lakeside Prep School which is a private school with the motto "As You Sow, So Shall You Reap" in 1968 at thirteen. I don't know what sort of education was provided at this Lakeside Prep school. Bill Gates was involved in all sorts of things, it seems between 1968 and 1972 except studying. Remember that 1968 was the year of the My Lai Massacre in Vietnam. But Bill Gates, from his elite school believes that United States *won* the Vietnam War. I don't think his education was good.

Compare this with my far superior education at a public school, John Adams High School in New York between 1987-1991. There I did not do all sorts of rubbish with electronics but studied. Lys K. Waltien was my mentor and she enrolled me in all honours and AP classes. I took calculus in sophomore year of high school with Mr. Lieberman, who was very good teacher and I got a 5 in Calculus BC. I took AP courses in English (4 in AP English), I took SAT twice 1170 first and 1450 second. I took Physics C and got a 5. I took History AP courses, including American history. I took courses at Columbia on Saturdays, graduate level topology courses after two semesters in Ross Program of Number Theory in summers of 1988-1989. Bill Gates did what? Play around with BASIC? Is this serious? I was valedictorian at John Adams High School in 1991. Then I attended Princeton with full financial aid. I graduated four years later with magna cum laude in 1995.

Bill Gates never graduated university at all. His education is non-existent. I had been doing some problems from 2012 and 2013 Stanford Analysis Ph.D. Quads in the last two days. He has a lot of self-promotion about his mathematical talents but this is all fabrication. I have actual code and mathematics to show the world. What does he have? Hot air. His intellectual development is nonexistent.
