Dear Yale,

Thanks for the Classics Professorship. Yes, so what you saw was literally a Demon attacking an Archangel in action. I did not see all the things but this Bill Gates is a genuine Demon. Let me keep the Classics Professorship for a while till Stanford University can come through. I thanks Princeton and Joyce Carol Oates for intervening.

So this man, *Bill Gates* is just a Demon and all his habits including squeezing the Life literally out of various people and all the things he does, they are not invented. He's a Demon, and this sort of thing is how Demons work.

Anyway, mighty kind of you for giving me a Classics Professorship in short notice.

Thank you,

Zulfikar Moinuddin Ahmed
