UNIVERSITY REGARDING US MILITARY SECURITY OF
STANFORD TENURE FROM BILL GATES ARMAMENTS**

Stanford University, I have heard US Military Consider that they will secure your tenure process from Bill Gates retaliations. Why don't you take the opportunity to send me a tenured full professorship immediately and give me \$100 million to my bank right away. It will take time for me to get things set up and arrange relocation. I do not want you to be circumspect and not move at all until I am dead and centuries pass. Why don't you make a faster decision and get things rolling right away?

I feel that with white people involved, Zulf's interests are a pain to get any attention. Why don't you buck the trend Stanford University?

I will do some more Stanford Math Ph.D. Analysis Quals, but do make some effort to get Mr. Andre Gsponer who worked on Jean-Francois Colombeau's distribution theory for problems in electrodynamics and hydrodynamics. I will vouch for this. Distribution theory-physics connection will lead to experimental discoveries that I am very very confident about as my four-sphere theory is tested for unknown features of Nature. Do that right now as well. Let's go go go go go Stanford. The world cannot stop because of single evil charlatan hick illiterate malevolent rotten cunt like Bill Gates ok?
