CAMPAIGNS TO EXCOMMUNICATE BILL GATES FROM US  
TECHNOLOGY INDUSTRY ALTOGETHER**

This note will be to thoroughly re-evaluate Bill Gates from his birth to today. This man has been plotting genocide of non-whites for decades. He is not just racist, but he is infinitely more evil and disgusting and vile and wretched and miserable than any Nazi butcher of Auschwitz. He literally revealed – in meta – his plan for *genocide* of all non-white people in American and has been plotting a White Racial Dominance World Order more Dystopian than any that the Nazis threatened in the 1930s.

He was never talented in coding at all. I have been a professional in technology from mid-1990s and I have also held senior roles in Finance and Biotechnology. I can vouch with my honour and word that I am 100% confident that Bill Gates never had any significant talent in coding. You can find code sample of mine here [?]. I am a very senior level coder and can manage thousands of people in great projects.

This man *Bill Gates* is a pure malevolent murderous charlatan and was a charlatan about his coding talent all his life. He is practitioner of the vilest forms of black magic that he mixes with US Industrial and US War Power to cut into eyes of unsuspecting people and destroy their lives and murder them. That is the secret to his 'success'.

United States Technology Industry will be enormously harmed if he is not immediately excommunicated and repelled from all US Technology and stripped of all honours, positions, and powers immediately.
