

**ZULF WANTS FRICTIONLESS VAST TRANSFORMATION OF
AMERICA SHORING UP NATURAL RIGHTS BY TAKING
ADVANTAGE OF CHIEF JUSTICE JOHN ROBERT'S POSITION**

ZULFIKAR MOINUDDIN AHMED

I have decades of experience as a Finance Quant and therefore understand good transactions. I want \$1 trillion and I see potential in getting this from US Government by getting a document of principles that John Roberts and his colleagues in Judiciary produce that will lead to infinitely better security of Natural Rights of Americans independently of wealth and ethnicity. John Roberts is from the blind justice republic tradition and is likely to promote those things, and in the end I need the Judiciary to rubber stamp \$1 trillion. If I get a document from him, he does most of the work, and I look over and pass it to a team of lawyers and voila I have \$ 1 trillion and can do Global Individual Debt, I can do Global Unhappiness Targeting and other things that are at the Global Level that appeal to me with very good budget and John Roberts gets what he thinks is right and we can totally reduce racial tension and all sorts of problems around America that are local at first sight but really due to US Government not being clear that it's fundamental reason for existence is just security of Natural Rights. Then we will have sacrificed the irrelevant fat cat Bill Gates to get something that is good for the world than dealing with his absurd ambitions to rule the world. He dies, I get what I want easily, John Roberts and Judiciary get what they want, money comes to me effortlessly, and my American Dream is superconducting. White Supremacy will die a quick death and that's that. What could be easier and more beautiful?

In a split second, all of American history will be filled with birds singing, and sunshine, and happiness.

So what if people don't like me getting \$ 1 trillion? That's not their business. That's not their business at all.
