

## WHY BILL GATES SHOULD BE RELENTLESSLY BOMBED WITH HIS BODY TOTALLY OBLITERATED

ZULFIKAR MOINUDDIN AHMED

I am a Princeton graduate, with senior level positions in Finance, Technology, Science between 1995-2008. Then I took a turn in my life where I gave up all my material possessions and was hobo for a while. I worked on Four-Sphere Theory and other things of my own interests, lived with my aunt. I dealt with great humiliations and hardships for my great sacrifices. I worked for some years on difficult Finance problems, and my Medium Frequency Alpha strategy was one fruit. I thought I will finally get some money to get back on my feet. I am owed \$120 million from D. E. Shaw & Co. Who sabotaged my legitimate earning? It was Bill Gates, the man who is a talentless charlatan, a racial supremacist without any moral compass, who has some money and he lives in luxury with harems of young girls in yachts and he dared to get between me, an American man, and his well-deserved legitimate earnings! Of course nothing other than relentless bombing and total obliteration of Bill Gates' body is acceptable. He deserves it more than any other man in history.

See, that's my story, and he's not good for your self-interest either. He made money and now he is obstructing deserving people from their legitimate success. Do you need him? He does not even deserve to be allowed to live on American soil. He says "Natural Rights are claptrap". He deserves to die a painful death for his insolence and United States ought to confiscate every penny of his wealth. He is a Traitor to this great nation too.

### 1. BILL GATES SAYS HE DOES NOT UNDERSTAND HOW BENGALI ETHNICS CAN BE BETTER THAN NEWTON

Bill Gates is of course not even college educated and is a college dropout, so he is not aware that the fundamental particles of light even are classified as *Bosons* named after the great Bengali physicist Satyendra Nath Bose (1894-1974) who collaborated directly with Albert Einstein for Bose-Einstein statistics. There are many others. I, Zulfikar Moinuddin Ahmed, am Bengali-Persian and my Aristocracy extends back to Vedic India of 1750 BC. And of course I am far greater than Isaac Newton in physics, having removed gravity from Nature altogether and produced completely independently the great Four-Sphere Theory which are the final laws of physics, with my S4 Electromagnetic law displacing James Clerk Maxwell law and my Spinor Fields on a rigid Four-Sphere replacing Quantum Fields, providing the Final Laws of Nature.

Compared to my great immortal genius not just in Physics, but in my recent work on estimate of Human Genetic Diversity, my accurate theory of Abiogenesis of Life on Earth, my vindication of both Aristotle and Nietzsche on particular matters, my accomplishments are far beyond the conception of a simple illiterate
