

I COULD DO A LOT OF THINGS WITH \$1-2 TRILLION

ZULFIKAR MOINUDDIN AHMED

I can get a reasonable un-ostentatious lodging like a \$3.5 million loft in San Francisco. Then I could just form an organisation and just tell people I am Archangel Zulf and I and my staff are doing the work of Heaven. Then I could get rid of all individual debt problems, institute Virtue programs for all countries, do Global Life Satisfaction, introduce new technologies to promote stronger social bonds, and many other Positive Psychology programs for the Human Race.

I have many good ideas. I love my beloved people the human race, so I like to do a little something for them. There are many Angelic Worlds in the universe. This one is Primitive, so I know what to do. You see, in many other Angelic Worlds they don't have as many failures as Human Race on Earth. It's harder to find something genuinely worthwhile to do. On Earth, they are trivial. I am an Archangel. I know a lot of things to do that will improve the Human Condition. I am lazy though, so not too much.
