

MY LIFE IS WORTH TWENTY THOUSAND BILL GATES AND UNITED STATES OF AMERICA

ZULFIKAR MOINUDDIN AHMED

What do you take me for, a fool? Obviously my life is worth twenty thousand Bill Gates and twenty thousand United States of America. My natural rights including Life is threatened. I don't give a damn about United States of America's existence or Bill Gates' worthless life. Why doesn't the United States kill Bill Gates since he assaulted my livelihood, health and life, which makes United States Government *illegitimate* with failure to comply with US Declaration of Independence Preamble.

No rational man would consider Bill Gates or United States of America worth a dime if their natural rights of Life were threatened. No one should. United States of America is *just an organisation* that is worthless unless it secures American people's natural rights.

1. REMEMBER MY OVERTURES TO JAPAN, GERMANY, AND ENGLAND WERE EXPLICIT

You will find that I had *dedicated my great work on Four-Sphere Theory* to the dead of Hiroshima and Nagasaki. I had explicitly been influenced by my ex-lover Sine Jensen (of Denmark) to trust Germany despite postwar anti-German propaganda here in the United States. I had directly attempted to charm the Royal Family of England. These overtures are not frivolous. I believe that my natural rights violations by Bill Gates *requires attention* of Eurasian powers and are symptoms as well of deeply disturbing aggressive genocidal war plans in Asia I believe are underway behind NSC-68 structures of our government.
