

PENTAGON TOP BRASS YOU HAVE FOUR DAYS TO KILL BILL GATES

ZULFIKAR MOINUDDIN AHMED

Today is November 21 2021. If Bill Gates is still alive in four days, November 25 2021, then I will plan to kill all Pentagon Top brass and your children too following my own personal code of honour. I don't want you to be unaware of this. You do have four days before I will permanently mark you on list of people who will have to be killed and I will also put your children and other close relatives in my list.

I don't need to break any laws to accomplish this at all. Enjoy your last days fruitfully because once you get on my list, that is it, there is no possibility of getting off it. I am surprised that you have a death-wish. But it's not my headache. You want to die then you want to die. I am not going to change my honour code to suit your needs. You were obligated by international law – UN Security Council Death Penalty Judgment against Bill Gates and US Executive Whites gave you authorisation to use military force against him. You have refused to honour US Declaration Preamble by your failure to kill Bill Gates. And now in addition you will face personal honour code provisions from myself. The future does not look to bright for you boys. Well death is not the end, I can tell you. So I will wish you happy post-death experiences right now and prepare to put you in my death list in four-days.
