

ZULF QUERIES UNITED NATIONS SECURITY COUNCIL FOR HOT-SWAPPABLE AMERICAN GOVERNMENT

ZULFIKAR MOINUDDIN AHMED

No government in the history of the world has treated one of it's own people as horribly as American Government has treated me. Clearly it is dysfunctional, and is not working as advertised. I had asked United Nations to design a hot-swappable American Government. What is the status of that project. It's very simple. You just take 1.4 million white people in American Government and swap them out with people who are able to read and understand the US Declaration of Independence Preamble.

So you get 1.4 million Americans who are not idiots and swap out the 1.4 million Americans working in American Government. They are more appropriate for dumpster diving with the tramps, not working in American Government.

Do this quickly. I don't have forever. If it's broken, just replace the whole show.
