

## **ZULF QUERIES CHINA FOR AMERICAN DRONE STRIKE PROTECTION AND \$620 MILLION SECURITY**

ZULFIKAR MOINUDDIN AHMED

Dear China,

I am Asian-American, and have been in America since 1987, but I am accosted by the white supremacist racial murderer Bill Gates who is obstructing \$620 million legitimate earning and my American Dream. Bill Gates is backed by many among whites in American Government.

I am having second thoughts about staying in America. Now I am afraid that America will assassinate me using the Predator drones. Can China guarantee that I have a good situation with some technology companies I was planning to do in San Francisco, security for my natural rights including protection from American Drone strikes and my \$620 million earned from Finance. I am not sure about what I will do yet. I don't want any American Drones in Asia at all. I also don't want any American military aggression in Asia either.

Thank you,

Zulfikar Moinuddin Ahmed
