

## INDIA TELLS US GOVERNMENT THAT BREACH OF BLOOD META INDICATES CRIMINAL INTENT

US Government says it has never dealt with breach of Deep Interior of anyone. India just did a short consider and told US Government that India knows that breach of Blood Meta indicates criminal intent and that the criminal ought to be constrained. Now Bill Gates breached my blood meta some months ago with a huge amount of Industrial machinery. China and some Chinese nobles were witness to it in meta.

I confess I did not know this. So Bill Gates had criminal intent by India's inference for some months already. I am of course in horrible intolerable pain right now. So Bill Gates had said he had "White Right" at the moment to breach my Blood meta. It turned out that this was a lie as White Law repeatedly confirmed that there is no White Right for a White Man to breach anyone's Blood meta at all.

I will immediately repeat to US Government that now there is sufficient clarity that Bill Gates had for a long time *criminal intent* and his meta activity which includes much more vile acts than breaching my Blood meta ought to be considered sufficient reason for US Government to take action to eliminate him completely.

I am American, and I demand action to secure my Natural Rights which is the purpose of US Government according to US Declaration. I cite US Declaration as the basis of my demands, that the US Government secure my Natural Rights which includes security of my Blood Meta and Deep Interior. Bill Gates explicitly violated both and ought to be considered criminally culpable in US Law as well as White Law and Christian Law.
