

**NOW ZULF SHOWS HEART AND COMPASSION FOR
AMERICAN GOVERNMENT AND THEN YOU ARE MY
SWEETEST KILL**

ZULFIKAR MOINUDDIN AHMED

You see United States Government, I am an Archangel of Heaven. I am quite Romantic Era American and hold the truths that I need to hold as self-evident. But now I see you are not in compliance with your organisational charter and don't actually want to secure natural rights of 330 million American People at all. Now which way can you turn? You will not be able to Amend the US Declaration of Independence Preamble at all. The right and left will both go against you and John Roberts wants to interpret the Preamble.

Now I show compassion for the American Government and you're done for. You see now things are different. I am American in a pure and lofty manner and you have to secure natural rights of 330 million American eventually because you have still not snuffed out Multi-Ethnic Classical Liberal Democratic Republic *completely*. Your malevolent intent to take away the sovereignty, Life, Liberty and pursuit of Happiness of all these 330 people populating our nation is *incomplete*. And I feel rather sing-songy about this.

Now listen to *Sweetest Kill*. I have a great heart filled with the compassion for a trapped animal you see. I will give you time. Take some time and secure natural rights.

I thought you were the sweetest kill
Did I even know?
And all the time we thought we did
Was it just for show?
If they try to pull you out
Would you even go?
I thought you were the sweetest kill
Did you even know?
I held your hand until the light
The scars were on the back
And all the time we were the right
Was it just retract?
And they can try to put you down, wear you out
Get you through the idea of the luck
Well, I thought you were the sweetest kill
Did we even know?
All the time, we get by, trying to figure out our lives
Like a fadeout
All the time, we get by, trying to figure out our lives

Like a fadeout
 When we took the level ten
 Was it just a twelve?
 And when we went to where we've been
 Was it just for self?
 And they can try to wear you down, put you out
 Get you through your will, that won't work
 I thought you were the sweetest kill
 Could I even know?
 All the time, we get by, trying to figure out our lives
 Like a fadeout
 All the time, we get by, trying to figure out our lives
 Like a fadeout
 All the time, we get by, trying to figure out our lives
 Like a fadeout
 All the time, we get by, trying to figure out our lives
 Like a fadeout
 Well, I break you through this world
 Well, I break you through this world
 Let me break you through this world
 Can I break you through this world?
