Dear United States Government,

I have decided to write a rare polite letter to you. I have an agenda here of course. I am pleased that you are taking small, but not yet effective steps in remedy for the problem where Bill Gates blockaded \$620 million of my legitimate income from D. E. Shaw & Co. and Madam Christine Lagarde of ECB. I do appreciate the small steps and the effort which have not shown concrete fruits such as money in the bank that I can access.

However, as you know I am quite interested in the well-being and natural rights of my beloved people the human race. Now of the human race, you are entrusted with well-being and natural rights of the puny 330 million population of United States of America. You are agents of the American people and serve the interests of this puny 330 million population.

I have found out from personal experience that this *Bill Gates* is a thoroughly evil, savage, beastly, extremely murderous criminal, and he had explicitly revealed his efforts at genocide of all non-white Americans. The question here is whether you actually have any right, as officers representing the Sovereign of America, the American People, to keep the man free and with power and money at all when you already know that he has various agenda to explicitly fatally harm 100 million people and believes himself to have the right to kill 'little guys', i.e. ordinary Americans? I would like to propose that you don't have any right to keep his Empire intact and are beholden to destroy his Empire completely for the sake of safety and well-being of the puny 330 million population of the United States of America.

I know that you have felt that this man was valuable to the nation. Well, you have been deceived about every aspect of the man. He is not hard-working at all in the ordinary way. He spends all his time attempting to enslave people, destructively invade people's eyes and harm their careers and lives, and is a significant natural rights threat for the puny 330 million Americans you are entrusted to serve. I feel that you are not understanding what your purpose is. Your purpose is not "American Economy". Your purpose is to secure natural rights of a tiny fraction of my beloved people the human race, the 330 million Americans, myself included.

What right do you have to leave totally intact the Evil Empire of a man who deceived the world for forty years and in fact was just busy plotting genocide and committing murder all his life while having soundbites about his great 'philanthropy'? By my reckoning you are obligated by US Declaration of Independence

Date: February 19, 2022.

Preamble to totally destroy his Empire and remove him from harming anyone at all American or non-American ever again.

Thank you,

Zulfikar Moinuddin Ahmed
