

WHAT POWER I USE TO MAKE THE WORLD MOVE

ZULFIKAR MOINUDDIN AHMED

There has been some curiosity about what is the method by which I move the world. Bill Gates uses meta powers and so on. My methods are quite different. I will demonstrate one for you.

Date: December 3, 2021.

Most likely you are familiar with the movement of the middle finger and the thumb of the right hand. I move it and it makes a snapping noise.

Basically I snap my finger and the world moves. I do use *word* a bit but I am not able to do this as well as the Christian God. I prefer snapping finger. I did do some experiment with "Let there be Light" and so on but to my chagrin, I still had to bumble around in the dark till I found the light switches and my word was not good enough.

I employ words in a more labourious *classical rhetoric* oriented manner, where I write various sorts of things to move people's hearts and minds and hope that *they* will do something I like. There are no guarantees of course. Many people do not even understand what I am writing, let alone then get enthusiastic about *doing* anything. I am wise and do not expect people will do anything I want.
