

# THE SECRET MYSTERY OF CHRISTIAN GENESIS NOBODY KNEW

ZULFIKAR MOINUDDIN AHMED

You see Christian Genesis story is quite amusing. I'll tell you a different story. So God decides to divide Night from Day and Heaven from Earth. So he is beginning his whole Creation. The trouble was God did not create Love. Love was out there doing it's own inscrutable thing. And when God got to Man and animals and Oceans and Continents and Stars and Galaxies, Love did not even notice. And God was a little irritated. God says "I am Your Lord God, obey me and go unto here and there". Love was not even paying attention. God became wrathful and began scheming to bring Love under control. Well no one ever heard from him since. We don't know exactly what happened but Love was still all over the place. It was detected even in Detroit Michigan.

## 1. SOME IDEAS FOR EXEGESIS

This myth is my creation and is not Revelation of Divine Knowledge in the old prophetic sense. Now I will just point out some elements of this myth. First of all, there is ambiguity of whether Love existed before God began Creation or not. I have no editorial comment on most of these ambiguities.

Second, the last words of God in this myth are intention to tame Love. Then there is a long silence of God and Love detected in Detroit Michigan. I have no particular interpretation for what might have transpired between God and Love. The ambiguity and its mystery are features of this myth. God might have merged with Love and given up Voice. God might have been at War with Love and become Extinct. I have no editorial comment on any preferred interpretation. There are a million other possible resolutions and explanations. I will be silent on all of these interpretations because this is part of the fundamental mystery that is irreducible of the myth and preferences mar the myth's beauty.
