

AMERICAN GOVERNMENT DO YOU NOT UNDERSTAND HOW MUCH MORE I AM THAN BILL GATES AT ALL?

ZULFIKAR MOINUDDIN AHMED

I will have to say that I am quite spectacularly stunned that American Government is unable to understand how much profoundly more important I am to this country and to the Human Race than Bill Gates. Bill Gates is not important; he made some money and contributes nothing to US Technology industry and is worthless. I am a real immortal genius and my theoretical physics Four-Sphere Theory is simply truth far beyond the reach of Albert Einstein and Erwin Schroedinger. My advances in work on Universal Human Moral Nature is a profound advance of Man's first clear understanding of Human Morals that has ever existed. My contributions are valuable for all of human knowledge for infinite time in the future.

Why would you allow Bill Gates to cut up my blood meta and invade my deep interior and not kill him for an entire year. Do you not understand that America will not be considered even a Civilised Nation for this grave mistreatment of an immortal great genius? I know that Bill Gates considers his destructive harm to me as a matter of what various "superior" white people ought to do to people who are immortal geniuses and not white. But what about American Government. Do you also consider these things are legitimate and acceptable? I don't see enough concern at all for America's reputation around the world here. I ask you to kill him because he claims to have "Conquest Rights" in my Deep Interior and you don't kill him? Is there anyone in American Government at all who has any responsibility at all to Natural Rights of Americans or you just want to let it all go and let murderous savage destructive beasts like Bill Gates rampage and destroy people's lives and not react at all?
