

## ZULF SUGGESTS TO MR. MERRICK GARLAND TO TREAT BILL GATES LIKE A TRUE ENGLISH KING: CHARLES I

ZULFIKAR MOINUDDIN AHMED

Mr. Garland,

Although Bill Gates is of *peasant stock*, he had a lifelong dream to rule the world, and he is English-Scottish. I would recommend that we in America honour his wishes and treat him like a true English King. Why don't we treat him like Charles I of England. It'll be really nice if we do it that way.

We could give him some royal regalia. Let's take a look at the picture here from 1649.

Well he used US War meta against an American, Zulfikar Moinuddin Ahmed, and this is *Treason* against the United States of America. Ah he was beheaded in one clean stroke on 30 January 1649. How about we behead him on 30 January 2022? That's a bit more than a month from now.

Date: December 10, 2021.

Let's see. So you put his head on the chopping block and with one clean sweep behead him huh?

That's nice. We can have a white man's trial and a white man's conviction for Treason for Bill Gates, and a white executioner beheading him.

Bill Gates will give a speech saying "Whites are superior." And I will be a non-white spectator saying "Amen to that."

1. WELL MR. GARLAND THE NATION IS FORTUNATE TO HAVE YOU AT  
ATTORNEY GENERAL

Mr. Garland, the moment you say, "I don't have any obligation to preserve white privilege for you Mr. Gates", I think the entire 330 million Americans are fortunate to have you at this spot. It won't be easy, Mr. Garland. You see, after the war, Eleanor Roosevelt had presided over the UN Universal Declaration of Human Rights in 1948. These were great people who established the values of the postwar order. We expanded natural rights issues and civil rights at home and abroad. Today 80 percent of humanity have convictions that they need to be secured.

But America was not always this way. Our idealism of the founders were never immediately successful. African-Americans were brutally taken from their homes in Africa forcefully enslaved and sold to people in industrial operations not that long ago in the nineteenth century. A Civil War barely managed to obtain emancipation. I am an immigrant to America. Between 1920 and 1965 when the Immigration And Nationality Act of 1965 was passed, there was strong political turmoil regarding American-ness of people like myself Asian-Americans regarding whether we are 'half-American' or 'quarter-American' and there were vocal opposition to our being accepted as American.

The native Americans were savagely murdered and displaced in the only truly successful genocide this world had ever known between 1492-1900.

And now you have acceded to the seat of Justice Department Attorney General in a similarly dramatic moment. The population is 60-40 between whites and nonwhites. Explicit racism is lower and only 15% (9% of Americans) of the whites believe in racial importance. In 20 years whites will be demographic minority. And that is the real political doomsday for many white people. They are reactionary. They believe that they have some God-given right to rule over all sorts of things and demean and destroy and denigrate non-white people everywhere not just in America.

They will assume that you share their unspoken agreements. It's not personal. That's what they learned as children.

You will have to be alert, and these moments are filled with potential for transformation, good and bad. You have to be sure about where you stand Mr. Garland. I believe in a single human race, globally. And you have to know exactly where you stand and realise that there will be push from every side and you have to hold steady. If you succeed, immortality is yours. If you fail, the ship sinks with you. May the Light be with you Mr. Garland.

## 2. FINE MR. GARLAND I WILL TELL YOU THE SECRET

You see, Mr. Garland. You are a good man, a good American, and you are the Attorney General of the Federal Government Justice Department.

But if you want to know, here on my left hand is the red pill. If you take the red pill you will find that with NSC-68 the government of our Multi-Ethnic Classical Republic Democratic Republic was split into two. One part, the part that you occupy, is attempting to ensure that America functions in reasonably civilised manner. And the other is an organised out of democratic control altogether and this part gets \$768 billion in 'defense spending' with some nods and winks about 'defense'. It's not a defense organisation. It is a global extortion scheme where in the name of 'defense' people unaccountable to any part of our democratic republic at all have all manner of genocide plans and regime change plans and all manner of white rule of the planet. This part of the government you will not have an easy time prosecuting. They operate with vast money snatched from the American people and disappear to control of people you will never meet. You might as well call them "Deep Throat" and "Smoking Man" as in X-Files.

But if you take the blue pill, all things will seem just as it seemed in your ordinary career.

Bill Gates is connected with some of the gangsters that rule the world without care for our laws and Constitution. They want to destroy China next. And so he was butchering me, in Allen Texas, without a care. Well I will unfortunately have to ensure United States cannot start any wars in Asia. I have my own Conscience.

It's up to you. This is what I look like. Not exactly as handsome as Morpheus in *The Matrix*.
