

ZULF DOES CONSIDER OVERTHROW OF TARQUIN AND FOUNDING OF ROMAN REPUBLIC GOOD INSPIRATION FOR WACKING BILL GATES

ZULFIKAR MOINUDDIN AHMED

On December 3 2021, I ordered my men to wack Bill Gates. My men are the Eurasian Powers, and this was a most excellent decision. I was examining the history of Tarquin, the last King of Rome. Macbeth's soliloquy uses the movement of Murder to have 'Tarquin's ravishing strides', and I am quite taken by it. It's a beautiful mythical story, and Shakespeare uses it wonderfully.

I do want Bill Gates to be wacked so that he might lose all his false deceptive image and dissipate into a moral cautionary tale. Tarquin, arrogant, proud raped the lady Lucretia, the wife of a nobleman. He was the heir of King of Rome who had gained the throne by murder of father and brother-in-law. Tarquins were banished after the rape of Lucretia and Roman Republic was founded.

This is truly a beautiful myth. The historical details are apparently from Ovid's *Fasti* and Livy's *History of Rome*. I adore this idea of a moral degenerate arrogant murderer who usurps the throne by patricide gives birth to a rapist son and then moral purge leads to a Republic.

This is quite a spin because Bill Gates can be wacked before he can become the Arrogant Tyrannical Emperor of the world, for he is quite analogous to the Tarquins. He was implicated with Jeffrey Epstein. A murderer and rapist he is surely, and I will expect my men of Eurasian Powers to be quite heroic in totally destroying this evil tyrant once and for all, and revive the spirit of Republic, with a haunting revival of Roman Republic. The world will celebrate. The world wants to sacrifice these sorts of horrible morally degenerate men, men whose banishment and death provides light and joy for the world.

1. WHAT WAS THE REAL CAUSE OF BILL GATES MISFORTUNES

He is a peasant intellectual amoeba. So when he annoyed the great noble immortal genius Zulfikar Moinuddin Ahmed, all his lifelong dreams fractured and were ground to powder and crumbled and fell to pieces and he never became the Emperor of the World as he always wanted. You know, it's tragic, and it's quite classical for it was his overweening ambition, his tragic flaw in character. His hubris was the cause.
