

CONVERSATION WITH JULIA NOVEMBER 23 2021: EXERCISES IN SELF-DISCLOSURE

1. PREAMBLE

First of all, there is very little doubt that the Self-Disclosure and its connection to Liking is very solid.

wrote you a letter earlier, have you seen it?

that's interesting. do you find many men who do not make himself by their life experiences? tell me more about your impressions of people

Well, to be honest, I always treat everyone well, someone is worthy of respect, someone has a good attitude. there are no bad people. I verb into it

what is your opinion about people?

that is fair. i do not always treat people well. i am respectful and civil with people until i learn something i do not appreciate, not everyone is a good person and not everyone is worthy of respect. but most people are good people

in fact in moral values, around 90-95% of people are good on major moral issues; around 5-10% are bad worldwide

I respect your opinion. And I'm always interested in what others think.

can I ask you a question?

that is a good quality. i am not always interested. i have strong views of my own and will generally not care too much about people's opinions when they are far from mine

go ahead

what is your opinion of me?

i like you and i want to see how our engagement can be substantially mutually beneficial whether or not we become intimate romantic lovers or not

what do you mean by mutual benefit?

i mean just as people. i will teach you some things i know well, and I will learn something that will help me with my life

oh trust me i'm a fast learner, i've always liked to learn new things I would like to tell my family about you

that is good. we are not in the physical vicinity of each other, so for me we are not in the same situation as my past lovers. physical intimacy brings different levels of concerns and we will not have those

wait, were you being serious?

about what? I have had five long relationships that are physical,
serious relationships. none of them involved long distance comm
do you like the distance between us?

I mean about the engagement

engagement is just an English word. i don't mean marriage. in fact

i prefer that marriage not be a central concern

i will not have children with a woman that i do not marry. but love
is independent

there is no possibility whatever that i would agree to marriage long
distance to anyone at all

Oh Gods! I have already noted that a courier with a bouquet of
roses and a ring will come now. then I would tell everything to
the family and show your gifts. sorry for being so frank. just
women's thoughts are very fast

well i will arrange that. but i will need some time sorry. it's not
right away. i need my finances in order for those.

I'm just very good at talking to you and I can't hide anything, not
even my thoughts

I understand. in our time, even a bouquet of roses costs money and
probably not cheap

hold on. i don't want you to wait for bouquet of flowers. i will get
those things when i have some other issues resolved. i am not a
wealthy man at the moment julia

that's right. it will be a pleasure for me when i get a response from
england

all is well, I am glad that we can share our thoughts with you. and
you seem to be next to me

that is good. be even more open. there is no risk. we are far away
from each other and if things do not work out you and i will be
able to move on

see the opportunities over long distance are better in some ways
than physical world contact and worse in other ways

Yes, move only forward, you are an amazing person.

you always describe everything so accurately that even with bad
English everything is easy for me

that's true. and you as well. but not all amazing people will belong
together necessarily. so that's the next step. enjoy the company
of any amazing people at the moment. there are many other
men who are amazing as well

now I want to continue communicating with you. don't you want
it?

don't think that you have only one soul mate. you could have
several over time

How many soul mates do you have now?

at the moment, none. but i have had soul mates in the past and
wnderful love too. i accept what is fate

do you think that everything that happens between us is fate?

yes. and i am aware that i talk to you because i want to. and
 i make friends that i make because i want to. and billions of
 people i do not talk to who are worthy i do not talk to because
 i want to

fate includes all things we do all the time

oh for sure! I also do what I want! and it really gives me pleasure
 it's not pleasure that is important. it is important to be aware that
 everything we do is because we want to do those things and not
 some other things

what would you like today?

well i am doing a refutation of Nietzsche's moral oeuvre and writing
 a lot of emails to get England to do something for my finances
 how can England help you with finances?

i am asking for employment with the Royal House directly. we will
 see how that goes

At the Royal House? what will you do there?

i will serve as Special Attache to United Nations serving the English
 Crown directly

but it is uncertain. all my earnings are sabotaged by Bill Gates
 right now

how does Bill Gates affect this?

he has power over employment and earnings of all sorts of people
 who have nothing to do with him, illegitimately accrued.
 UNSC and English Crown have higher levels of power. He's a
 nightmare

where did you work before?

i worked last at Babel Research in Boston. Then for the past decade
 I worked on my own on theoretical physics and other things
 without earning. then i worked on finance strategies to get
 back into the game. D. E. Shaw is trading my work but Bill
 Gates forbade all earnings to me and damaged me

then i had to contact US Senate, UN Security Council, and English
 Crown to get past his power

Bill Gates is not exactly a businessman. he's a power monger. he's
 murderous and I have to push American Government to strike
 him down

are you talking about murder? isn't it cruel?

he is a MASS MURDERER. he does not give a damn what is cruel
 and what is illegal. he believes he has the right to kill 'little
 guys'

don't worry about this. i am a good virtuous man. i will win

tell me more about which little guys you are talking about

I feel that you are good, that's why I'm talking to you

i will share one email i sent out and then i want us to change topics.

i am not just good. i am extremely strongly good

ok i am waiting for your letter

as i said before I don't like to involve women and family in my wars.
 it's dishonourable conduct

I agree with you, but you can just tell a woman, share your thoughts with her. right?
 that's not the issue. i am open and honest. and 49 so i have complicated set of issues and i would rather really talk about more personal issues with you
 ok, what kind of personal problems do you mean?
 not problems personal concerns. my wars are international in scope because bill gates is big
 Well, my personal concerns are probably family, home and work))) and what did you mean?
 i mean issues of love, of inner world, values, those things. my life is going to be just unorthodox till i resolve my conflicts dear. it is not as peaceful as those with normal lives
 do you want to listen to a song with me?
 yes, what song?
 elton john "sacrifice"
 what a wonderful music, it is a pity that not all words are clear. but a very beautiful song
 listen to this song until you understand all of it crystal clearly. that's part of my teaching to understand love
 something about the love you value when you've lost? right?
 no it is about a married man who is estranged from his wife and is tempted by another woman and the aftermath of an extramarital affair
 but understand the song very well. this is important
 there is still talk of a frozen heart
 elton john is a sublime artist and genius of the heart. cold cold heart is part of the story
 it's not one simple thing. it is sublime art.
 Elton John is a virtuoso whom I like to listen to))
 yes a piano virtuoso but he is also a genius in human heart and emotions. it's the latter that interests me
 do you want to listen to the song with me?
 song in Russian.
 sure
 I will write the name in Russian and you copy and find
 Anna German - love song
 are you here? did you find the song?
 i am listening. it is good. i will think about it. listen to lana del rey "blue jeans"
 yes listen to this carefully. get into the songs you will benefit
 wow aries great song
 wow, very wonderful song
 lana del rey is extraordinarily talented and popular. she will be remembered as a marilyn monroe icon here in america
 exactly! that's what I forgot! I forgot to see her photo
 it's not her face exactly but her style and influences. she is very deeply american

Wow! she is very beautiful
 is she a true patriot?
 yes and her sense of american artistic tradition is strong. it's not
 patriotism. america has struggled to find its own style
 yes my writing is clear and my threats are serious but that's not so
 interesting to talk about with you as finer points of love
 well, I will not hide in women's affairs, or rather in tenderness and
 affection, I understand better
 i believe marriage is only sometimes valuable when there is a very
 high level of achievement in love between people
 love is as much men's affairs as women's. i don't think it is a
 monopoly of women
 how can you understand what level of love? how to measure it?
 experience and observation in life. the more you love honestly the
 more you understand the boundaries and the struggles of love
 without genuine intention to love purely there is nothing to learn.
 in order to understand love you must love
 I was just always convinced that there is no graduation of strong
 love or weak love, I think that love is either there or it is not.
 After all, it's impossible to love a little bit. do you love or not
 there is no such thing as automatic love. you have to love and you
 have to learn the problems and keep doing that. all myths will
 dissolve and you will see love is beautiful and very difficult and
 subtle
 no gradations of love are infinite
 there is also no love and some love. but gradations go through the
 skies
 I know this and the romance of a relationship is very important to
 me, a fairy tale that both a man and a woman create for each
 other
 well its not a fairy tale you can create exactly. love is bigger than
 all other things in one's life. so fairy tales do not work
 did you love?
 yes very strongly. for many years multiple women not simultane-
 ously. and i do not regret them even though they did not last
 why are you not together now? tell
 there is no reason that can explain those things darling. love and
 parting are mysterious things
 Well, you could not one fine day just disperse? did something
 happen?
 i could invent reasons but i know better. reasons are just intellectual
 attempts to give theories for totally mysterious and deep things
 these are years long affairs darlings a million things happened. i
 won't go into them
 okay, I understand you. don't you want to go back in time?
 i married one woman for five years and another i lived with for
 similar time. there were others. i am a good lover
 no i move forward. i want higher love

do you have a woman now?
 now i am single
 I'm talking about bed
 no i never have sex with anyone i do not love
 in fact that is a rule for me since i was a young boy. sex is sacred
 union of love. i do not like denigrating myself
 I understand, forgive my excessive curiosity
 and how long have you been alone in this regard?
 i don't mind at all. for me lovers do not amend when they part
 what are you trying to say?
 i have been alone for about twelve years now. i was working on
 things without much income and did not want to get involved
 with anyone new. i am interested in getting finances fixed and
 get settled in san Fran
 oh when love is broken, there is no way to fix it. you have to move
 on
 healthy people recover from loss in about a year. some take longer.
 then they find new love
 I understand that now you are completely busy with your finances
 i have no finances till i deal with obstructions of bill gates who is
 intent on starving me of all funds and killing me. i have to keep
 on top of this
 are you disturbing Bill Gates that he wants to kill you?
 he wants to kill me because he is used to killing people. he does
 not want non-whites succeeding in united states. he kills people
 by esoteric power methods routinely for many decades
 he is not your ordinary type of man
 it's really scary
 well i did not know about any of this. i was shocked and am emailing
 joint chiefs of staff and threatening to annihilate the American
 Government if they don't get rid of him
 well i don't want to get into those things. i am American. I will
 fry the son of a bitch in olive oil
 I believe you, just ask you not to swear, I don't want you to be
 upset
 i will keep that in mind. i grew up in new york. i swear easily
 how was your childhood
 it was eventful. i got shot at 11 and did not die. but was studious in
 new york during high school 1987-1991 and was a stellar student
 shot? how did it happen?
 in eighth grade for a change i was not in a boarding school in Bengal.
 my mother was separated from my father then. i went to visit a
 friend's house to use the computer he had. he wanted to show
 off a gun his father bought him. shot me by mistake
 the pellet would have hit my heart, bounced off a rib bone and
 lodged in my liver. i survived. then a year later i moved with
 my mom and brother to united states. i could not do gym or
 sports

Did they buy a real pistol for the child?
 I am so glad that everything is fine with you, it is fate that you
 stay alive
 it was an air gun for killing birds, not for killing people
 ahhh, I thought it was a combat pistol
 yes. it was a miracle. i was atheist from 1979-2008 so i did not
 explain it by God
 tell me about your childhood
 my childhood was spent in Kiev, the school house is a playground,
 sometimes it seems to me that apart from textbooks and class-
 mates I have not seen
 kiev was established 482 AD by consensus. will you feel comfortable
 with a life in san francisco dear?
 I haven't been to San Francisco yet. and I can't give an answer
 right away
 ok i will keep that in mind. have you lived anywhere but kiev at
 all?
 no, I didn't live, but was on excursions
 kiev has 3 million and it is ancient. san francisco has 1 million and
 began in 1776. i won't try to entice you. it is the best city for
 me
 ahah, by the way, you have every chance of luring me away! you
 are very convincing))))
 well if you do decide this ensure that you feel exttemely comfortable
 with me. dislocation from ancient homeland with people who
 have ancestry in the same land for 1500 years to a new place
 needs a great deal of trust
 where are you now?
 i am in Allen Texas with my aunt and brother. unless i get a gig
 from england or someone powerful enough to contest bill gates
 i would ask that you hold off. i plan to buy a loft and i know
 san francisco very very well but it is expensive
 are you planning to move to San Francisco?
 whether it is with you or not i plan to build my roots there with
 good finances, and i know the neighborhoods and cafes and all
 the rest. it's a beautiful city for people with some resources and
 very difficult without
 well i lived there for many years. these problems of bill gates ruined
 my plans
 I already want to go there. did you live there for a long time?
 on and off yes. this time it will be with intention to buy property
 and build a home for myself and someone who is my lover
 have you already looked for a place to live there?
 i moved first to san francisco after 9/11, maybe 2002 with a position
 as scientist in South San Francisco pharma biotech. I lived on
 Guerrero and 14th. i was very happy there
 i know all the neighborhoods. i will find a place in Mission District.
 you can find some maps and photos on internet

did you live alone at that time?
 yes. i have lived alone 1995-2009
 well i was married 1995-2000
 you remember your biorgafia so exactly, did you ever think to write
 a book about yourself?
 i am precise and bill gates might kill me so yes i know all details of
 my life precisely and have written them for posterity
 have you already written everything?
 not a book. i archived them for scholars and sent them to harvard
 and other universities
 i write papers. i make pdf, put them in Guthub for access, and
 save them
 I thought I'd give you a good new idea, but it looks like I'm late
 well my life is threatened so i am very meticulous. my discoveries
 and work are important for the human race
 What's your favorite discovery?
 well my theoretical physics was gigantic effort with decade of work
 without support or pay but the human nature work is more
 important for people's lives
 do you mean to say that your discoveries were not paid adequately?
 no one pays me at all darling. i do these things because i wanted
 to work on them. i do them on my own
 i did work on finance strategies that are deep and for that i am
 owed a substantial amount but Bill Gates is using all his power
 to denyany compensation
 you see bill gates believes that whites are superior and thinks he
 can suppress and kill me and give credit to white people loyal
 to him for all my work
 it's so sad that you weren't paid for your work
 i was not working for anyone. i have my own company registered
 that i want to expand in SF
 i won't get into it. it's a messy situation. Bill Gates is not finance.
 D. E. Shaw wants to pay but cannot because Bill Gates can
 retaliate and destroy their company
 Bill Gates is an outlaw.. he does not accept US Law at all
 it's all so scary to hear when a talented person is not appreciated
 well that's common. what is not common is suddenly at 49 to
 find that a prominent businessman is a career murderer and
 American government does not want to wipe him out
 julia don't be sad darling. i am not sad
 I will not be sad, I promise
 good. i am much more dangerous than bill gates than he is to me
 you probably have a plan. right?
 i have many plans at work. i am already well known in US Supreme
 Court, in United Nations Security Council, in Washington think
 tanks asking for total destruction of Bill Gates
 do you have their support?

well yes but they are not as aggressive as him. people don't make
these things public because he is very high in power
he controls around \$1 trillion in US industry and I am not wealthy
so this is an uphill battle
listen to muse "undisclosed desires"
you are a great man, I would like to see you now
