

ZULF DEMANDS HIGHER SOCIAL STATUS IN AMERICA THAN BILL GATES

ZULFIKAR MOINUDDIN AHMED

Bill Gates uses a lot of harmful black magic. I am a Princetonian. I demand much higher social status than Bill Gates in American Society immediately. Use of black magic lowers Social Status I learned. I also want a thorough check for my Social Status.

Princeton and Stanford can you please be good and carefully examine my social status in America versus Bill Gates.

I am an immortal genius in Science, and I am a magna cum laude 1995, and I worked at Lehman Brothers 1995-1996. I am refurbishing my Social Status in America.

Thank you so much for your kind intervention, Princeton and Stanford.

Thank you,

Zulfikar Moinuddin Ahmed

1. THE LEGITIMATE RATIONALE FOR SOCIAL STATUS RIVALRY WITH BILL GATES

I love my beloved people the human race obviously and I have thousands of years of aristocratic lineage from Bengal. I heard that in American Society immigrants like me do not have high social status. I want that changed, and I demand higher social status than Bill Gates because my Virtuous Character is far superior to his. Furthermore I am an immortal genius in Science, for which I am seeking tenure. I do not think that Bill Gates deserves to have higher social status than me. He lied to the world about his SAT score. He said it was 1590 while it was 1290. My SAT score is 1450. My ideas about Quantitative Positive Psychology is bigger than his third rate Microsoft. For the sake of well-being of my beloved people the human race I must fight for higher social status than Bill Gates in American Society.

2. PREVENTION OF GLOBAL MONARCHY

Bill Gates had the lifelong dream of ruling the world. I believe lowering his *Social Status* in American Society is a great philanthropic project and I am willing to take it on.

3. MY CAPABILITIES WOULD EASILY HANDLE LARGE SCALE LEADERSHIP

I want to point out that my previous experience in industry as well as natural leadership abilities and intelligence allows me to claim without deception that I can lead the entire world order and nations of the world, companies with not just hundreds but millions of people working in them for I am a just, fair, honest, good virtuous man, and I have genuine love of my beloved people. My cultivation is

Date: January 25, 2022.

very good, my artistic tastes in poetry and literature, in film and art, and my mathematical and scientific tastes are very good too. I am a gentleman with ladies always. I am obviously naturally higher status than these Ostrogoth Barbaric Savage deceivers who use power against laws of world and nation such as Bill Gates.

I hold these truths to be self-evident that all men (on Earth, mind you, not just all white men) are created equal, that they are endowed by their Creator (i.e. Nature for I believe in a silent God who never gives any messages and am not quite Christian but Virtue-oriented). I believe that governments are instituted among men to secure these rights. With these beliefs deep in my heart I am naturally American in ways that these podunk hick charlatans like Bill Gates do not have sufficient intellectual sophistication to fathom, with their wretched beastly 'I'm white I'm white' and their parakeetlike repetition of 'Whites are superior. Whites are superior'.

Obviously American Society ought to hold me in higher esteem and offer me higher Social Status than these sort of hick illiterates, these sorts of mezza-calza without culture, who believe that Edgar Allen Poe is a greater literary giant than Rainer Maria Rilke. Such abominable opinions are intolerable to the cultivated men like myself.

4. I HAVE COURAGEOUSLY STAYED IN AMERICA

Many years ago, Thomas Stearns Eliot, a great poet who stunned the entire literary world with unearthly genius in *The Waste Land* in 1922 was in Boston, and he was sickened by the onslaught of these boorish uncultivated *commercial men* who had gained prominence in America while the cultivated men were marginalised already in early twentieth century. I have been far more courageous and did not rush off from the battle. I have stayed in America for 34 years, and time has come for cultivated men to take back this country.
