

## CAUSAL CHAIN OF CORRUPTION IN FINANCE IS DUE TO CORRUPTION OF US GOVT

ZULFIKAR MOINUDDIN AHMED

Let's consider the issue of Finance professional norms in the case of D. E. Shaw & Co. not paying me my \$120 mn when they were trading \$6 bn (\$2 bn from Bill Gates and \$4 bn from India). Here D. E. Shaw & Co. makes a pragmatic decision to not pay in order not to trigger a high power forbid from Bill Gates in order to survive. US Government did not provide them any protection if they actually *followed Finance norms and paid for the legitimate services I provided to them*. Why? Well I quickly deduced that the root problem is the non-conformity of US Government with US Declaration of Independence Preamble, where my Natural Rights of Life, Liberty and Pursuit of Happiness was not deemed important to secure even though it is explicitly listed in the National Charter, for US Declaration Preamble is part of US Constitution.

So the causal chain is that D. E. Shaw & Co. was willing to pay for legitimate services by my work and labour, but since US Government was corrupt, did not consider it pragmatic the moment when Bill Gates decides to kill me and US Government has his cronies and Finance is not organised enough to address the problem. Two prominent people in Finance, David E. Shaw and Christine Lagarde together consider transfer of \$620 mn to me but since Bill Gates has illegitimate clout and US Government does not conform to its Charter, legitimate business processes of labour and service and compensation are sabotaged.

The fault here is that my Natural Rights are not secured by US Govt as they advertise to the world, and my USCIS# 046-077-179 I have kept valid by efforts ever since 1997. So I have approached UN Security Council for harm against me that US Govt should be considered as the responsible party.

Bill Gates was a born criminal, and he should not have had any support from US Govt at all. But the US Govt did support him from early 1970s and now he is totally disrupting transparent business processes that allow American Economy to function while simultaneously pretending that Bill Gates is *important* to the US Economy. This is false. Bill Gates is a liability to the US Economy, was always a liability to the US Economy, was always a ruthless lawless criminal, and was *never* an asset to the US Economy.
