

## ZULF IS VERY PATIENT AND NICE WITH AMERICAN GOVERNMENT

ZULFIKAR MOINUDDIN AHMED

You see, United States Government, there are things called *international laws*. That's *international laws*. They were introduced in United Nations Charter. United States was a founding member of this organisation. You don't seem to be aware of too many things, you know what you know if I know what you mean.

Well, let me make you *aware* so you don't keep repeating *we were not aware* in your murdering sprees. There was, once upon a time, a great American lady named *Eleanor Roosevelt*. She worked very hard as a widow to chair the committee on Human Rights in the United Nations in 1948. She led drafting of some *international laws* that were accepted and ratified by around 50 countries. These are *international laws* you see?

Are you becoming slowly aware of these concepts? Well UN Universal Declaration of Human Rights of 1948 are international laws. They cover almost all people of Earth. So each person you have *ever murdered* was protected by international law.

I see that you are befuddled and staring with incomprehending visage. Awareness comes very slowly on new concepts. I understand. I am patient. So you see when you arbitrarily designated all manner of people as 'don't like him at all' and then drone kill him, that's violation of international law.

### 1. ZULF WILL TAKE CREDIT FOR A GREAT ADVANCE IN HUMAN CIVILISATION

For 73 one of the foremost nations of the world, United States of America, had made zero effort to train its military on any matter of international law at all. The UN Universal Declaration of Human Rights of 1948 was ratified by fifty nations, led by a great American lady, Eleanor Roosevelt. But the gangsters who took control of the country with Harry Truman, who implemented NSC-68, seems to have carefully avoided any program at all to instruct the military of the United States about American membership in international law body United Nations, and as a result, military men have never heard of international law of human rights.

I discovered this marvelous fact today by accident. That is just quite astounding to external observers.

### 2. THE SOURCE OF THE PROBLEM IS KKK GOON HARRY TRUMAN

I am quite convinced that should Franklin Delano Roosevelt had not died, there would have been a refactoring of United States Government to conform with International Law. But the KKK Goon Harry Truman took control, and his Presidency produced NSC-68 structures and global gangsters took control and they could not give a damn about international law. Ever since, United States Government had

degenerated as a legitimate organisation with coherence. No one in the world really understood the depravity of the situation in American Government. This is a truly marvelous grand discovery of mine. Europe and Asia had no clue that American Government was so outrageously barbaric.
